An efficient organic insecticide for use in combatting and controlling the below named insects which harm the below named vegetables.

DIRECTIONS

As soon as any insect damage is apparent, dust the plants thoroughly and repeat every 7 to 10 days during the growing season.

The dust is effective:

Against European cornborer on corn. Do not feed the treated foliage to live stock.

Against Colorado potato beetles, and flea beetles on potatoes.

Against tomato hornworm, and leaf miners on tomatoes, peppers and eggplant.

Against pickleworm, melonworm, cucumber beetle, and squash bugs on cucumbers, squash, pumpkins and melons.

Against flea beetles, harlequin bugs, army caterpillars and cabbage loopers worms on cabbage, brussels sprouts, cauliflower and kohlrabi.

Against Mexican bean beetles and bean leaf beetles on beans.

CAUTION:- Do not dust later than 3 days before harvest.

Avoid inhalation of the dust. May cause irritation of the nose, eyes and skin. In case of skin contact, wash with water; for eyes, get medical attention.

CAUTION:- Keep out of reach of children.

ENVIRONMENTAL CAUTIONS:-

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning equipment, or disposal of wastes. Apply this product only as specified on this label.

Do not reuse empty container. Destroy it by burying it with waste or burning. Stay away from smoke fumes.
