

FOR AGRICULTURAL USE ONLY RESTRICTED USE PESTICIDE

For restricted use only by Certified Applicators or persons under their direct supervision and only for those uses covered by the Certified Applicators Certification

Fundal

4EC

INSECTICIDE - OVICIDE FOR USE ON COTTON

SPECIAL PRECAUTIONS TO PREVENT EXPOSURE

Wear the standard and special protective clothing as indicated below to ensure against possible exposure during all operations associated with handling and application. Wear clean clothes every day and avoid contact with clothing. Place contaminated clothing in a specially designated container and launder separately. Keep it separate from other clothes after work is over. Use of hot water, soap and dryer is recommended.

STANDARD CLOTHING Heavy duty long sleeve long pants work shirt, long underwear, including T-shirt, undershirt, socks, and shoes. Do not wear heavy duty work clothes.

SPECIAL PROTECTIVE CLOTHING AND EQUIPMENT

When washing aircraft cleaning equipment, in case of spills or accidents, and for other special use when maximum protection is needed, wear a complete work boot, rubberized or plastic pants with heavy covering rubber boots, a long sleeved, high, waterproof heavy duty rubber or neoprene gloves, and an approved pesticide respirator such as Wilson's 1200 (also use equipped with Wilson's 4200 hood) and R 15 filter. Canisters and filters must be changed daily. Do not rewash or reuse of use of breathing device. Do not use a protective suit until it is clean and dry after use.

PERSONAL PRECAUTIONS

If FUNDAL 4EC concentrate or spray gets on clothing, immediately remove contaminated clothing and wash affected parts of body with soap and water. If there is any question as to the extent of contamination, bathe entire body thoroughly. Change to clean clothing.

Wash hands with soap and water before eating, drinking, or smoking. After use, shower with soap and water. Do not use a protective suit until it is clean and dry after use.

SPECIAL EQUIPMENT

FUNDAL 4EC must be transferred and mixed using closed-system equipment. A closed system is defined as a pump, hose, connections, meters, pumps, and plumbing designed to eliminate human contact. Do not use open mixing vats or tanks, or open pouring.

All plumbing connections must be sufficiently tight to prevent leakage.

Use hoses constructed of chemically resistant heavy duty reinforced materials. Avoid excessive pressures to minimize the possibility of rupture. If any signs of weakness appear, flush the hose thoroughly with clean water and replace immediately.

Transfer and storage vessels and transfer equipment must be equipped with dry break valves.

Any equipment which has been contaminated with FUNDAL 4EC must be thoroughly cleaned and flushed with clean water prior to maintenance or use for other purposes. Wear appropriate protective clothing when performing equipment maintenance operations.

Accents must be equipped with low pressure hoses.

ACCIDENTS

For minor spills, washes, etc., follow a previously mentioned procedure. For major spills, immediately take special care to avoid contamination of equipment and facilities. Submit spill report to local health and safety authorities.

For more information, contact your local health and safety authorities.
