

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not apply directly to food. Do not apply while food processing is underway. This product may be used in places where edible products are handled, provided that exposed edible products are removed or stored in closed containers. Food contact surfaces and equipment must be thoroughly washed with an effective cleaning compound and rinsed with potable water after spraying. Do not remain in treated areas. Ventilate the area after treatment is completed.

AS A SPACE SPRAY: Use 2 1/2 ounces of this product as a finely dividing floating spray or fog for each 1,000 cubic feet of space. Open cupboards, closets and lockers. The mist should be sprayed so that it will be forced into crevices where the insects hide. An exposure for one hour will give high degree of control, but for maximum results allow room to be closed for 4 to 6 hours. Cover all foodstuffs to avoid contamination from falling insects. Repeat as often as necessary.

ROACHES, WATER BUGS, SILVERFISH: This product can be used as a coarse spray so that it will not float in the air. Direct spray to surfaces of cupboards, lockers and other places where insects hide. Spray all cracks and crevices. The specified insects hit by the spray will be killed quickly. Apply at the rate of one ounce to about six square feet of surface as often as necessary.

ANTS: For best results spray ant trails.

NOTICE OF WARRANTY: The manufacturer makes no warranties expressed or implied concerning the use of this product other than those indicated on the label. Purchaser assumes all risks of use and handling of this material when such use and handling are contrary to label instructions.

GENERAL INFORMATION

This product is intended for use by pest control operators.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Do not contaminate water by cleaning of equipment or disposal of wastes.

PRECAUTIONARY STATEMENTS

Cover fish and remove birds before spraying.

CAUTION

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

IF SWALLOWED: Call Physician or Poison Control Center immediately. Do not induce vomiting unless directed by a physician.

IF INHALED: Remove victim to fresh air. Apply respiration if indicated.

IF ON SKIN: Remove contaminated clothing and wash affected areas with soap and water. Get medical attention if irritation persists.

IF IN EYES: Flush eyes with plenty of water. Get medical attention if irritation persists.

STORAGE AND DISPOSAL

1. Prohibition: DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL. OPEN DUMPING PROHIBITED.

2. Pesticide Disposal: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

3. Container Disposal: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.
