

## UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

MAY 23 1995

John J. Walker, Ph.D.  
I. Schneid, Inc.  
1429 Fairmont Avenue, N.W.  
Atlanta, GA 30381-4601

Dear Dr. Walker:

Subject: Revised Labeling - Add WPS Exclusionary Statement  
Clean-Up  
EPA Registration No. 2155-64  
Your Submission Dated March 2, 1995

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable with the following provisions:

- 1) Since this product has no aquatic uses, delete the statement "Do not apply to muddy water and do not agitate water excessively with outboard motor or injection equipment during application" from the Precautionary Statements.
- 2) The phrase "For terrestrial uses..." may be deleted from the beginning of the second sentence in the Environmental Hazards.

A stamped copy is enclosed for your records. Please submit one (1) final printed copy for the referenced label, incorporating the above changes, before releasing the product for shipment.

Sincerely yours,

Joanne I. Miller  
Product Manager (23)  
Fungicide-Herbicide Branch  
Registration Division (7505C)

#### GENERAL INFORMATION

##### USES

1. GENERAL WEED CONTROL IN NON-CROP AREAS: Controls broadleaf weeds, brush and grasses. Kills most annuals and top kills perennials. It kills through the leaves only.
2. GENERAL WEED CONTROL IN SHRUB AREAS: Product will not injure desirable plants as long as spray does not come in contact with leaves of these plants. This product becomes inactive on contact with soil; therefore, plant roots do not take up chemical. This product does not build up and becomes toxic at a later date.
3. GENERAL VEGETATION CONTROL: Around buildings and other installations, ornamental gardens, walkways, patios, storage areas, fence lines, golf courses(sand traps), parkways, driveways, drainage ditches and similar areas where any type of vegetation is undesirable.

##### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Not for use on turf being grown for sale or other commercial use as sod, or for commercial seed production, or for research purposes.

For use on plants in non-crop and non-timber areas only. Not for use on crops, timber, or other plants being grown for sale or other commercial use, or for commercial seed production, or for research purposes.

**NON-CROP OR NON-PLANTED AREAS:** To kill above ground weed growth around buildings and other installations, ornamental gardens, walkways, patios, fence lines, golf courses(sand traps), parkways and driveways for control of undesirable broadleaved and grass-type weeds - 2 1/2 gallons per 20 gallons of water (16 oz. per gal. water). Apply for full coverage and thorough weed contact. Apply preferably in young growth and up to seeding of weeds. Repeat applications as necessary to maintain control, particularly on grasses and established weeds. Avoid spray contact with foliage, food crops or ornamental plants. Do not water treated areas for 24 to 36 hours after application. Do not allow entry of maintenance personnel into treated areas within 24 hours after treatment unless protective clothing is worn.

##### STORAGE AND DISPOSAL

**STORAGE:** Keep container closed when not in use. **PESTICIDE DISPOSAL:** Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture or residue is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. Do not contaminate water, food or feed by storage or disposal. For terrestrial application, wastes from use of this product may be disposed of on site or at an approved waste disposal facility. **CONTAINER DISPOSAL:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill by other approved state and local procedures.

##### FOLIAGE SPRAY TREATMENTS

Foliage spray treatments should be applied in sufficient water (150-200 gals. per acre) to thoroughly wet foliage. As the season progresses and vegetation increases in mass, the higher dosage indicated should be used and more uniform distribution is necessary. Local conditions may affect the use of this chemical. Consult agricultural experiment station or extension service weed specialist for specific recommendations for dosage, time of application and control of other weeds. Do not apply at rates higher than specified on this label. Check with state authorities for necessary permits.

**ENVIRONMENTAL HAZARDS:** This product is toxic to wildlife. For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of wastes.

## NON-SELECTIVE WEED KILLER

##### ACTIVE INGREDIENTS:

Diquat dibromide [6,7-dihydro-2-pyridazinyl (1,2-a:2',1'-c) pyrazinylsulfonate] 1,6,1,4 96.11%

##### INERT INGREDIENTS:

Total 100.00%

\*Contains 0.10 lbs. Diquat Calcon per gal. as 0.12 lbs. salt per gal.

FIRST: READ ENTIRE LABEL. OBSERVE ALL WARNINGS AND FOLLOW DIRECTIONS CAREFULLY. USE ONLY IN CONFORMANCE WITH FEDERAL AND STATE REGULATIONS.

This herbicide, when used as directed, will kill most forms of plant growth without damage to soil. Absorption and herbicidal action is usually quite rapid with effects visible in a few days. This product is inactivated on contact with soil.

**KEEP OUT OF REACH OF CHILDREN  
WARNING:**

See right side panel for precautionary statements.

FOR COMMERCIAL/INDUSTRIAL ONLY.  
NOT FOR USE ON AGRICULTURAL ESTABLISHMENTS.

ACCEPTED  
with COMMENTS  
In EPA Letter Dated

MAY 23 1995

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act  
as amended, for the pesticide  
registration under EPA Reg. No.
