SEP 27 1999

Subject: Algaecide 1250  
EPA Registration No. 2155-73  
Amendment Dated July 21, 1999

Attn: John J. Walker  
Director of Research

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable to add the heading "Precautionary Statements Hazards to Humans and Domestic Animals" to the label. A stamped copy of the label is enclosed for your records.

Submit one (1) copy of the final printed label before this product is released for shipment.

If you have any questions concerning the comments in this letter, you should contact Zenobia Jones at (703) 308-6198.

Sincerely,

Velma Noble  
Product Manager 31  
Regulatory Management Branch 1  
Antimicrobial Division (7510W)

# DIRECTIONS

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT  
IN A MANNER INCONSISTENT WITH ITS LABELING.

**INITIAL DOSE:** 1 gallon of this algaecide to 50,000 gallons of water. Initial dose is used when filling pool at beginning of swimming season. If pool has visible algae growth, treat with initial dose. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or reappear, repeat this treatment procedure as necessary. When pool is free of visible algae, use the recommended maintenance dose.

**MAINTENANCE DOSE:** Add at 3-5 day intervals. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently. If make-up water is added at the rate of more than 10% per week of pool capacity, add 1 quart of this algaecide for each 10,000 gallons of fresh make-up water added per week. When swimming season is over, add 1 gallon of this algaecide to 50,000 gallons of water in treating water left in pool. This dose helps provide a measure of control of algae growth during the winter months. This treatment will also help the servicing of the pool before it is returned to use the following season.

**FISH AND/OR WILDLIFE PRECAUTIONS:** This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public waters. Apply this product only as specified on this label. When this algaecide is used as directed, it will kill and prevent development of *Chlorella Pyrenoidosa* (green), *Phormidium inundatum* (black algae), *Phormidium retzii* (Square D algae), *Lyngba versicolor* (blue-green) and other swimming pool algae. This algaecide may be used to sanitize pool areas such as walkways, diving boards, ladder rails and walls and floors in dressing areas. Prepare a sanitizing solution by mixing 1 ounce of this algaecide with 4 gallons of water. Apply with mop, cloth or sponge to those previously cleaned areas to be sanitized.

This algaecide is effective against *Trichophyton interdigitale*, a causative agent of athlete's foot, at a dilution of 1 3/4 ounces per gallon on water. This algaecide is compatible with most commonly used swimming pool chemicals, but should not be mixed with soap or other cleaners or premixed with other water treating chemicals. This algaecide works best when added by itself directly to pool water. This algaecide at use is non-corrosive to inanimate surfaces.

<b>ACTIVE INGREDIENTS:</b>	
n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18)	
dimethyl benzyl ammonium chlorides	5.0%
n-Alkyl (68% C12, 32% C14)	
dimethyl ethylbenzyl ammonium chlorides	5.0%
<b>INERT INGREDIENTS</b>	90.0%
<b>TOTAL</b>	<b>100.0%</b>

**DANGER: KEEP OUT OF REACH OF CHILDREN**  
SEE SIDE PANELS FOR ADDITIONAL PRECAUTIONS.

NOT FOR SALE TO OR USE BY HOMEOWNERS OR RESIDENTIAL USERS.

# PRECAUTIONS HAZARDS TO HUMANS

KEEP OUT OF REACH OF CHILDREN. CORROSIVE to skin or on clothing. Wear goggles or face shield. Avoid contamination of food.

# ENVIRONMENTAL

Do not discharge effluent containing this product into navigable waters or onto land, unless in accordance with the requirements of the permit and the permitting authority has been notified. Do not contain this product to sewer systems without a permit. For guidance contact your State Water or Recreation Department.

In case of contact, immediately flush eyes or skin with water. Remove and wash all contaminated clothing. If these are not available, drink large amounts of water. Probable mucosal damage may contraindicate respiration depression and convulsion may be necessary.

# STORAGE

**STORAGE:** Keep container closed when not in use. **PESTICIDE DISPOSAL:** Pesticide wastes are toxic. Disposal is a violation of Federal Law. If these wastes are not disposed of properly, contact your State Pesticide or environmental protection agency for guidance. Do not reuse containers. **CONTAINER DISPOSAL:** Metal Containers—Triple rinse or puncture and dispose of in a sanitary landfill. Plastic containers—Triple rinse (or equivalent) and dispose of in a sanitary land-fill, or incinerate if burned, stay out of smoke.
