When this product is used as directed, it will aid in controlling and/or preventing the development of unsanitary algae slime conditions which are unsightly, produce foul odors and are often the cause of equipment breakdown. This product is compatible with virtually all corrosion inhibition additives, but should not be used in the presence of soap or other anionic detergents. This product, at use dilution, is non-corrosive to inanimate hard surfaces.

#### DANGER

KEEP OUT OF REACH OF CHILDREN Corrosive. Causes severe eye and skin damage. Do not get in eyes, on skin or clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

#### ENVIRONMENTAL HAZARDS

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water or Regional Office of the EPA.

#### FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution or, if these are not available, drink large quantities of water. Call a physician. NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

#### STORAGE AND DISPOSAL

**STORAGE:** Keep container closed when not in use.

**PESTICIDE DISPOSAL:** Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. Do not contaminate water, food or feed by storage or disposal.

**CONTAINER DISPOSAL:** Metal Containers - Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. Plastic Containers - Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state or local authorities, by burning. If burned, stay out of smoke.

**DIRECTIONS:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Begin treatment when the system is in jeopardy of becoming affected or after cleaning system efficiency is already impaired.

**INITIAL DOSE:** 1-2 gallons solution to each 5,000 gallons of water contained in the system (20-40 ppm active quaternaries). Repeat until control is evident.

**PERIODIC DOSE:** When system is in control, add 1-3 quarts solution to each 5,000 gallons of water (5-15 ppm active quaternaries) contained in the system every 7 days or sooner should visible growth appear.

For best results, clean heavily contaminated systems before treatment with this product. If soap or anionic detergent is used, rinse thoroughly before charging with this product. Apply solution at a point in the system where uniform mixing will take place. Do not be alarmed with the sudden appearance of organic debris in the system during the first week of operation. This is normal and is a good indication that the solution has effectively penetrated and dislodged dead organic material which adheres to metal and wooden surfaces. This debris should be removed from the system to avoid clogging of screens and pipes.

**ENVIRONMENTAL PRECAUTIONS (FISH AND WILDLIFE):** This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public waters. Apply this product only as specified on this label.
