

## DIRECTIONS FOR USE

This product is for use in industrial, commercial, and institutional recirculating cooling water towers to control the growth of algae and fungi. Begin treatment when the system is in jeopardy of becoming affected or after cleaning a system whose efficiency is already impaired. Badly fouled systems must be cleaned before treatment is begun. Apply at a point in the system where the product will be uniformly mixed.

For intermittent feeding, an initial dose of one bag (4.5 pounds) for each 6,000 to 12,000 gallons of water in the system. Repeat until control is achieved. When microbial control is evident, add one bag (4.5 pounds) per 12,000 to 24,000 gallons of water in the system every 2 to 5 days, or as needed to maintain control.

## CONDITIONS OF SALE

The manufacturer warrants that this material conforms to the description on the label. The manufacturer neither makes, nor authorizes any agent or representative to make any other warranty, expressed or implied.

## DANGER:

Keep Out of Reach of Children.  
Do not breathe dust or spray mist. Wear rubber gloves and goggles.

## FIRST AID

In case of contact with the skin or eyes by the powder or concentrated solutions, flush exposed areas with water for at least 15 minutes. Remove and wash clothing before reuse. For eyes, call a physician.

If swallowed, induce vomiting. Call a physician. **Note to physician:** this product is a metabolic stimulant and causes hyperthermia. Treat symptomatically.

Do not reuse empty container. Destroy when empty.

This product is toxic to fish and wildlife. Treated effluent should not be discharged where it will drain into lakes, streams, ponds, or public water. Apply this product only as specified on this label.

Net weight: 4.5 pounds per bag
