

DIRECTIONS

All dirt and filth must be removed before attempting to do a disinfecting job.

For Disinfecting Rooms, Toilet Seats, and Garbage Cans around homes: Pour 1 part disinfectant into a pail. Add 100 parts of water (4 ounces disinfectant to 12 quarts water). Stir the milky solution before using. With this solution you can mop, rinse or wash.

For Disinfecting Toilet Bowls: Pour 4 ounces of the undiluted disinfectant into bowl water. Swab toilet bowl with the solution. Flush toilet and rinse mop several times.

For Scrubbing: Use one 4-oz. cup of disinfectant to a 12-quart pail of water. Add the water to the disinfectant. Scrub; then rinse the floor.

NOTE: Keep tightly closed when not in use. When warm, disinfectant may become cloudy, but will clear up when cooled. This does not impair its efficiency.

WARNING

KEEP OUT OF REACH OF CHILDREN.
Causes severe eye irritation. Do not get in
eyes, on skin or clothing. Harmful if swallow-
ed. Avoid contamination of food.

FIRST AID: In case of eye contact, immedi-
ately flush eyes with plenty of water for at
least 15 minutes, then get medical attention
promptly. In case of skin contact, flush skin
with plenty of water for at least 15 minutes.
Remove and wash contaminated clothing be-
fore reuse. If swallowed, do not induce vomit-
ing - drink large quantities of fluids and get
medical attention immediately.

Rinse empty container thoroughly with water
before discarding or returning drum to drum
reconditioner.
