

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Not for use on turf being grown for sale or other commercial use as sod, or for commercial seed production, or for research purposes.

For use on plants in non-crop and non-timber areas only. Not for use on crops, timber, or other plants being grown for sale or other commercial use, or for commercial seed production, or for research purposes.

**GENERAL INSTRUCTIONS:** This product is a liquid non-selective, general herbicide which is designed to be used where control of all vegetation is desired. It produces rapid kill of all succulent vegetation. Translocation and root absorption produce extensive root kill of weeds and provides long term control. For easy application and better penetration dilute one gallon of concentrate to 10 gallons of water and apply as directed below. Sufficient moisture from rainfall or artificial means is necessary after treatment to carry the chemical into the roots of the weeds. This product is recommended for non-crop areas such as RAILROADS, HIGHWAYS, PIPELINES, TANK FARMS, LUMBER YARDS, FENCE ROWS and PARKING LOTS. This concentrate can be sprayed or sprinkled on. If sprayed, direct the spray to the soil at the base of the weeds and adjust for coarse spray to prevent drifting. Thoroughly clean spray equipment with a suitable chemical cleaner before using for other purposes or do not use same equipment for other purposes. Do not re-use this container for other purposes.

**ANNUAL WEEDS AND GRASSES:** Such as Crabgrass, Foxtail, Ryegrass, Wild Oats, Broomgrass, Lambsquarter, and similar weeds. Use 5 gallons of the diluted concentrate per 750 square feet (200-300 gal./acre).

**PERENNIAL WEEDS AND GRASSES:** Such as Smooth Brome, Quackgrass, Bluegrass, Purple Top, Dandelion, Goldenrod, Wild Carrot and similar weeds. Use 5 gallons of the diluted concentrate per 400 square feet (450 to 500 gal./acre).

**HARD TO KILL PERENNIALS:** Such as Johnsongrass, Bermudagrass, Dallisgrass, Nutgrass, Saltgrass, Dogbane, Horsetail, Bracken Fern, and similar weeds. Use 5 gallons of the diluted concentrate per 175 square feet (1,100 to 1,200 gal./acre). Use higher levels of dosage on absorptive soils.

**RETREATMENT:** Apply 5 gallons of the diluted concentrate per 750 square feet when Annual Weeds and Grasses reappear.

**NOTICE OF WARRANTY:** The manufacturer warrants that this product conforms to the chemical description on the label thereof and is reasonably fit for purposes stated on such label only when used in accordance with directions under normal use conditions. It is not possible to eliminate all risks inherently associated with use of this product. Ineffectiveness or other unintended consequences may result because of such factors as presence of materials, or the manner of use or application, all of which are beyond the control of manufacturers. In no case shall the manufacturer be liable for consequential, special or indirect damage resulting from the use or handling of this product. All such risks shall be assumed by the user. Manufacturer makes no warranties of merchant, ability or fitness for a particular purpose nor any other express or implied warrant except as stated above.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish, birds and other wildlife. Birds feeding on treated areas may be killed. Do not contaminate water by cleaning of equipment or disposal of waste. Do not apply when weather conditions favor drift from areas treated. Do not apply directly to water.

# LIQUID VI

## CONCENTRATE

### Non-Selective Water Soluble Weed

Each gallon contains 0.22 lbs./gal. Bromacil.

#### ACTIVE INGREDIENTS

Lithium salt of bromacil (5-bromo-2sec-butyl-6-methyluracil) ..... 2.4

INERT INGREDIENTS: ..... 97.5

Total 100.0

### KEEP OUT OF REACH OF CHILDREN

## WARNING

#### STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED-Call a Physician or Poison Control Center immediately. Drink one o of water and induce vomiting by touching the back of the throat with finger. Repeat ur is clear. Do not induce vomiting or give anything by mouth to an unconscious perso  
IF INHALED-Remove victim to fresh air. Apply respiration if indicated.  
IF ON SKIN-Remove contaminated clothing and wash affected areas with soap and  
IF IN EYES-Flush eyes with plenty of water. Call Physician immediately.

SEE SIDE PANELS FOR ADDITIONAL PRECAUTIONS

FOR COMMERCIAL/INDUSTRIAL ONLY. NOT FOR USE ON AGRICULTURAL ESTAI

INDUSTRIAL ONLY. NOT FOR USE ON AGRICULTURAL ESTABLISHMENTS.  
MANUFACTURED FOR:

I. SCHNEID, INC.  
1429 FAIRMONT AVENUE NW  
ATLANTA, GEORGIA 30318-4153

GENERAL INFORMATION: This concentrate after mixing in water, is non-volatile, non-flammable, and non-corrosive to metals except aluminum. Do not use with aluminum spray nozzles.

This concentrate is an effective general herbicide for use on non-cropland areas for control of brush and many annual and perennial weeds, and is particularly useful for control of perennial grasses. It is a water soluble liquid to be mixed in water and applied as a spray; this concentrate may be applied undiluted for basal (soil) treatment of brush. Effects are slow to appear and may not become apparent until the chemical has been carried into the root zone of the weeds by moisture. The degree of control and duration of effects will vary with the amount of chemical applied, soil type, rainfall, and other conditions.

IMPORTANT - Injury to or loss of desirable trees or other plants may result from failure to observe the following: Do not apply, or drain or flush equipment on or near desirable trees or other plants or on areas where their roots may extend, or in locations where the chemical may be washed or moved into contact with their roots. Do not use on lawns, walks, driveways, tennis courts, or similar areas. Prevent drift of spray to desirable plants. Do not contaminate domestic waters. Keep from contact with fertilizers, insecticides, fungicides, and seeds. Thoroughly clean all traces of this concentrate from application equipment immediately after use. Flush tank, pump, hoses, and boom with several changes of water after removing nozzle tips and screens (clean these parts separately).

PRECAUTIONARY STATEMENTS: Hazard is to humans and domestic animals.

WARNING: Harmful or fatal if swallowed. Do not breathe vapors. Do not get in eyes, on skin or on clothing.

ENVIRONMENTAL HAZARDS: Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

WARNING: HARMFUL OR FATAL IF SWALLOWED. CAUSES EYE IRRITATION. MAY IRRITATE NOSE, THROAT AND SKIN. Do not get in eyes. Avoid contact with skin and clothing. Avoid breathing spray mist. Keep away from heat and open flame. Wash thoroughly after handling. In case of contact, flush eyes or skin with plenty of water, for eyes, get medical attention.

### STORAGE AND DISPOSAL

1. Prohibition - DO NOT CONTAMINATE FOOD, OR FEED BY STORAGE OR DISPOSAL. OPEN DUMPING PROHIBITED.

2. Pesticide Disposal - Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

3. Container Disposal - (metal containers) Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

(plastic containers) Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
