This product is a low foaming carpet shampoo formulated for use with extraction and carpet steam cleaning equipment. It contains "twin chain" quaternary ammonium compounds to reduce the growth of gram negative and gram positive odor forming bacteria.

This product is fortified with odor counteractants to neutralize unpleasant malodors. Recommended for use on washable synthetic fibers, but not recommended for use on wool carpets. It removes greasy soil, leaves no residue to promote resoiling and eliminates soil redeposition to vacuum pick-up tanks.
