

**FOR USE ON ROSES, DAHLIAS, ASTERS AND OTHER ORNAMENTALS** to kill Japanese Beetles hit by spray, as well as aphids, exposed thrips and spider mites.

This ornamental spray may be used on plants, as a multi-purpose spray in small ornamental gardens, and for spot treatment of incipient insect infestations to prevent spreading in large ornamental gardens.

This spray may be used on such plants as African violets, asters, azaleas, begonias, camellias, carnations, chrysanthemums, dahlias, delphiniums, dogwood, English ivy, euonymus, fuchsia, geraniums, crassula, grape vine, Kentia palm, laurel, marigolds, rhododendrons, roses, rubber plants, snap dragons, stocks, Wandering Jew and zinnias. As an insecticide, it is effective when used against aphids, spider mites, exposed thrips, lace bugs, Japanese beetles (hit by spray) pavement ants, clover mites and army worms.

As a fungicide, spray before infestation occurs for the prevention of powdery mildew and black spot on roses. Spray at 7-10 day intervals normally or at 3-5 day intervals during wet weather.

**CAUTION:** Do not spray closer than 18", avoid excessive wetting of foliage. Do not spray Maidenhair Fern, Lantana or Cyclamen. Do not spray near open flame. Keep out of reach of children. Avoid contamination of feed and foodstuffs. Do not store above 120° F. Do not burn or puncture container. Do not use near fish bowls or aquariums. Avoid breathing of spray or contact with skin. Do not leave in eyes or on skin. May be a skin irritant and sensitizer. Wash thoroughly.

**NOTICE:** Seller's responsibility is limited to accuracy of contents and conformation to the chemical description. Buyer assumes all risk and liability for use, storage and handling and accepts and uses this product under these conditions.
