SPECIFIC DIRECTIONS

ORNAMENTALS: Apply to the soil around base of plant. Will control cutworms, [illegible] and [illegible] beneath plants at night and weekly.

VEGETABLES: Bait for soil pests around beans, cabbages, [illegible], tomatoes, [illegible], melons, lettuce and [illegible], as direct to soil or plant. Bait [illegible] the soil area. Apply to soil surface around [illegible] tomatoes, cabbage, [illegible] and cauliflower. Do not contaminate edible parts.

FRUIT: For strawberries, [illegible] bait [illegible] plant beds on [illegible] by [illegible] rows, placing pellets beneath. Do not apply within 6 days of harvest.

GREENHOUSE: Bait as soon after irrigation as practical. Delay next watering to allow time for slug and snail control. Bait areas beneath growing benches, near soil, compost piles and potting benches. Rate will vary with plant population. Use 1 lb. to treat 800 to 1600 sq. ft. Treat the soil only, around flowers or vegetables (cucumber, lettuce, radish, tomatoes). Do not contaminate edible parts.

WARNING: May be fatal if swallowed. If swallowed induce vomiting. Call physician immediately. Avoid breathing dust. Avoid contact with skin, eyes or clothing. Wash exposed areas thoroughly with soap and water after use. Avoid contamination of feed and foodstuffs.

Metaldehyde, oil bait, and formulations containing this product should be kept away from fire or open flame.

This product is toxic to wildlife. Birds feeding on treated areas may be killed. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Keep dogs off treated areas.

Do not reuse this container. Dispose in a safe place.

NOTICE: Buyer assumes all risk and responsibility of use, storage and/or handling of this product not in accordance with the terms of this label.
