

INSTRUCTIONS

VEGETATION KILLER

Use this product to kill unwanted vegetation. It is a fast-acting, non-selective herbicide. It kills all types of plants, including trees, shrubs, and vines. It is safe for use around buildings, roads, and other structures. It is also safe for use on lawns and gardens. It is a granular product that can be applied by hand or with a spreader. It is a white powder that does not contain any harmful chemicals. It is a safe and effective way to control unwanted vegetation.

NOTE:

Do not use this product on crops or other desirable plants. It will kill them. Do not use it on lawns or gardens. It will kill the grass. Do not use it on trees or shrubs. It will kill them. Do not use it on vines. It will kill them. Do not use it on buildings or other structures. It will damage them. Do not use it on roads or other paved areas. It will damage them. Do not use it on lawns or gardens. It will kill the grass. Do not use it on trees or shrubs. It will kill them. Do not use it on vines. It will kill them. Do not use it on buildings or other structures. It will damage them. Do not use it on roads or other paved areas. It will damage them.

HOW TO APPLY:

Apply this product to the vegetation you want to kill. Use a hand spreader or a mechanical spreader. Apply it evenly over the vegetation. Do not apply it to crops or other desirable plants. Do not apply it to lawns or gardens. Do not apply it to trees or shrubs. Do not apply it to vines. Do not apply it to buildings or other structures. Do not apply it to roads or other paved areas. Do not apply it to lawns or gardens. Do not apply it to trees or shrubs. Do not apply it to vines. Do not apply it to buildings or other structures. Do not apply it to roads or other paved areas.

Do not use this product on crops or other desirable plants. It will kill them. Do not use it on lawns or gardens. It will kill the grass. Do not use it on trees or shrubs. It will kill them. Do not use it on vines. It will kill them. Do not use it on buildings or other structures. It will damage them. Do not use it on roads or other paved areas. It will damage them. Do not use it on lawns or gardens. It will kill the grass. Do not use it on trees or shrubs. It will kill them. Do not use it on vines. It will kill them. Do not use it on buildings or other structures. It will damage them. Do not use it on roads or other paved areas. It will damage them.

NOTE:

Do not use this product on crops or other desirable plants. It will kill them. Do not use it on lawns or gardens. It will kill the grass. Do not use it on trees or shrubs. It will kill them. Do not use it on vines. It will kill them. Do not use it on buildings or other structures. It will damage them. Do not use it on roads or other paved areas. It will damage them. Do not use it on lawns or gardens. It will kill the grass. Do not use it on trees or shrubs. It will kill them. Do not use it on vines. It will kill them. Do not use it on buildings or other structures. It will damage them. Do not use it on roads or other paved areas. It will damage them.

CAUTION:

Harmful if swallowed. Irritating to skin, eyes, nose and throat. Do not breathe dust. Do not get on skin, in eyes or on clothing. In case of contact immediately wash skin with plenty of water; for eyes, wash with water for at least 15 minutes and get medical attention.

NOTE:

Do not allow to drift onto desirable plants or crops. Do not reuse empty container. Destroy by mixing with waste or burning. Stay away from smoke or fumes. Do not use in areas into which use of other desirable plants is intended. Do not use for application of herbicides. Do not use to prevent corrosion of equipment. Do not use other materials used in contact. Do not contaminate water by storing at equipment, or disposal of waste.

For directions, refer to the label and method of application, weather and crop conditions, mixtures with other chemicals not specifically recommended, and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage or disposal of this material in full accordance with instructions given hereon.

cut and rake out clippings; then treat. Full season control can be obtained if properly applied.

In areas of excessive rainfall (60-80 inches per year), treatment every 6 months may become necessary for grass and weed control. GRASS-N-WEED KILLS OVER 80 DIFFERENT WEED SPECIES COMMONLY FOUND.

HOW TO SPRAY GRASS-N-WEED. Apply diluted spray to areas with a garden sprinkler can or a sprayer that delivers large coarse droplets. Hold sprinkler or nozzle within 6 inches of ground. Do not allow spray to drift. To clean sprinkler can, fill with 1 pint household ammonia and water. Let stand over night, empty and flush. Do not get spray on roots of valuable plants; therefore, do not treat beneath "drip" area of small trees, etc. Do not spray cultivated areas where nearby trees, shrubs or plants may be injured from leaching of chemical in soil. Do not

DIRECTIONS

NON-CROP LAND:

For use on non-crop land such as highway ways, industrial plants, parking lots, tank farms, storage areas and loading lots. The control of most annual and perennial grasses and broad-leaf weeds. Control will usually last 6 months or longer. The effectiveness and length of time control will last depend on type of soil, amount of rain and other conditions.

RATE:

Under ordinary conditions use at the rate of 400 to 1200 pounds per acre. Under conditions where weeds are difficult to control increase the rate to 1200 pounds per acre. For spot treatment use 1 to 2 pounds per 100 square feet. For uniform control spread the material evenly over the area to be treated.

HOW TO APPLY:

Use a mechanical spreader or other device which will spread the material evenly over the area to be treated. It may be applied when the growth is dense, but better control will be obtained when weeds are short or when excess growth is mowed and removed before applying.

WHEN TO APPLY:

Best results will be obtained if applied shortly before or at the time plant growth begins. Rain or thorough watering after application will cause the material to move to the root zone and thus speed up control. DO NOT apply when ground is frozen.

NOTE:

Do Not use in areas into which tree or other desirable plant roots extend. Do Not contaminate domestic water supplies, farm ponds or water to be used for livestock.

CAUTION:

Harmful if swallowed. Irritating to skin, eyes, nose and throat. Do not breathe dust. Do not get on skin, in eyes or on clothing. In case of contact immediately wash skin with plenty of water; for eyes, wash with water for at least 15 minutes and get medical attention.

NOTE:

Do not allow to drift onto desirable plants or cropland. Do not reuse empty container. Destroy by burying with waste or burning. Stay away from smoke or fumes. Do not use in areas into which tree or other desirable plant roots extend. Equipment used for application should be thoroughly cleaned to prevent corrosion or contamination of other materials used in it later. Do not contaminate water by cleaning of equipment, or disposal of waste.

Follow directions carefully. Timing and method of application, weather and crop conditions, mixtures with other chemicals not specifically recommended, and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
