100%

* Protected by U.S.
Patent No. 3,736,338

E.P.A. Reg. No. 2169-323

E.P.A. Est. No. 2169-KS-1

KEEP OUT REACH OF CHILDREN - 12 PT.

CAUTION - 18 PT.

SEE SIDE PANEL FOR ADDITIONAL
PRECAUTIONARY STATEMENTS

Net Weight _____ 10 Ounces; 1 Pound; 4 Pounds.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED - Drink 1 or 2 glasses of water
and induce vomiting by touching back of throat
with finger. Do not induce vomiting or give
anything by mouth to an unconscious person.
Get medical attention.

IF INHALED - Keep patient strictly at rest and
transfer to hospital immediately to get medical
attention.

IF ON SKIN - Wash with soap and warm water.

IF IN EYES - Rinse thoroughly with clean water.

NOTE TO PHYSICIAN: Contains Anticholinesterase
Carbamate Insecticide. In cases of overexposure
Atropine Sulfate - 2 mg. (equivalent to 1/30 grain
adult dose) should be given and repeated as
necessary until fully atropinized.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Recommended for use in Non-Food areas. This product is for residual pest control in and on buildings and structures and their immediate surroundings. Permitted areas of use include, but are not limited to: houses, garages, trailers, campers, storage sheds, apartment buildings, stores, warehouses, industrial buildings, schools, nursing homes, hospitals, restaurants and hotels.

INDOOR USE

This product is intended for application with a shaker or puffer container to hiding and runway areas and those places where pests are found. The amount to be applied will vary with the site, but should usually be in the range of 1/3 to 2/3 ounces of dust per square yard.

Cockroaches, Ants, Crickets, Silverfish and Firebrats: Thoroughly dust all areas where these pests crawl and hide, especially cracks and crevices around sinks, stoves, refrigerators and cabinets; behind baseboards; around doors and windows and in attic, basements and crawl spaces. For Ants, apply to ant trails and around doors and windows where they may enter premises.

Brown Dog Ticks and Fleas in Buildings: Dust infested areas such as pet beds and resting quarters, nearby cracks and crevices, under the edges of rugs and floor coverings, between and under cushions of upholstered furniture and other places where these pests may hide. Old bedding of pets should be removed after treatment of pet area and replaced with clean fresh bedding. Additionally, ensure that pets are treated with an EPA approved product registered for pet use. **DO NOT TREAT ANIMALS OR THEIR BEDDING WITH THIS PRODUCT.**

Spiders: Dust along and behind baseboards, window and door frames, corners, pipes, storage localities, attics, basements, crawl spaces and other areas where spiders may hide.

DIRECTIONS FOR USE (Cont.)

Page 3 of 4

Wasps: It is best to treat wasp nests at night when insects are less active and have returned to the nest. Do not wear loose fitting clothing - take necessary precautions to avoid stings. For best results, carefully dust near nest and check one or two days after treatment to ensure complete kill, and retreat if necessary. If possible, remove and destroy nest to prevent hatching of new insects. For ground nests, carefully dust entrance and surrounding areas. Retreat in one or two days if wasp activity is still present. Do not use this product to treat nests overhead.

Sowbugs, Pillbugs, Ground Beetles, Earwigs, Millipedes, Centipedes and Scorpions: Apply around doors, windows and other places where these pests may enter. Treat baseboards, storage areas, and cracks and crevices, especially in dark, musty areas where these pests may hide.

OUTDOOR USE

Perimeter Treatment: Use this product - - - - -
- - as a residual treatment for control of Ants, Brown Dog Ticks, Centipedes, Cockroaches, Crickets, Earwigs, Firebrats, Fleas, Ground Beetles, Millipedes, Pillbugs, Scorpions, Silverfish, Sowbugs, Spiders and Wasps. Make a residual treatment around windows and doors, porches, screens, eaves, patios, garages, under stairways and in crawl spaces and other areas where pests hide.

To help prevent invasion of buildings and structures by the above pests, treat a band of soil and vegetation 6 to 10 feet wide around and adjacent to the building or structure. Also treat the building foundation and crawl spaces where pests are active and may find entrance. Apply thoroughly and uniformly to the band area. Pay particular attention to ant hills and wasp nests in the band area. Wasp nests in trees and shrubs may be treated as noted above.

Imported Fire Ant Mound Treatment: - - - - - **To Make a Liquid Application** Stir 7 oz. of this product - - - - -
- into 2 gallons of water. Pour a small amount of material around the perimeter of the mound. Apply the remaining volume directly on the mound so as to penetrate insect galleries, using 2 gallons of mixture on mounds 8 inches or larger in diameter. Less mixture can be used on smaller mounds; however, thorough penetration of the insect galleries must be achieved. A second treatment may be necessary if complete control is not obtained.

Do not disturb the mound prior to application. If possible make applications after a recent rainfall. Applications may not be as effective during hot, dry periods.

To Make A Dust Application: Use as is. For established Fire Ant Mounds apply between 1/2 to 3 level tablespoons of dust to cover 9 sq.ft. (3 ft.x 3 ft). of the mound, aiming the center. Apply the same amount directly to the center and where the ants enter the ground. Apply gently so as not to disturb the mound. Use on or suitable dusting equipment, not kitchen utensils. Repeat applications for control. Treat new mounds as they appear. One ounce of this product requires 1 1/2 level tablespoons.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS
AND DOMESTIC ANIMALS

CAUTION:

Harmful if swallowed inhaled or absorbed through the skin. Do not breathe dust. Do not allow to contact skin, eyes or clothing.

Wash hands and exposed skin before eating, drinking or smoking and after handling. Wash all contaminated clothing thoroughly before reuse.

Do not apply to humans, animals, clothing or bedding.

Do not use in food areas of food handling establishments, restaurants or other areas where food is commercially prepared or processed.

Do not contaminate feed or food products or food preparation surfaces, dishes, kitchen utensils and food containers.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds, and other wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as directed on his label.

This product is highly toxic to bees exposed to direct treatment or residues on crops. Protective information may be obtained from your cooperative Agricultural Extension Service.

STORAGE AND DISPOSAL — 12 PT

Do not contaminate water, food or feed by storage or disposal.

KEEP PESTICIDE IN ORIGINAL CONTAINER.
DO NOT STORE NEAR FEED OR FOOD PRODUCTS.
DO NOT REUSE EMPTY CONTAINER. WRAP AND
DISPOSE OF EMPTY CONTAINER IN TRASH
COLLECTION.

NOTICE: Buyer assumes all risk and liability of use, and/or handling not in accordance with the terms of this label.
