# GARDEN PROTECTOR USES

**GARDEN PROTECTOR** may be used on vegetables such as tomatoes, potatoes, beans, cabbage, cauliflower, cucumbers, eggplant, melons, asparagus and flowers such as peonys and roses. Gives control of a wide variety of insects including bean leaf beetle, Mexican bean beetle, aphids, imported cabbage worms, flea beetle, cucumber beetle and Colorado potato beetle. Do not apply to food crops within one day of harvest.

**GARDEN PROTECTOR** may be used effectively against fleas on dogs and cats. Dust sleeping quarters and replace with fresh bedding. Rub dust into hair or fur. Repeat as needed for control.

## DIRECTIONS

**AS A DUST** — Apply with a dust gun or sift from the shaker top carton. Dust plant thoroughly, covering both upper and lower sides of foliage, covering all insects to be controlled.

**AS A SPRAY** — Stir four to six tablespoonfuls into a paste with a little water, then add sufficient water to make one gallon of spray. The mixture should be agitated occasionally to maintain an effective suspension. Spray plants thoroughly covering all insects to be controlled.

**NOTICE:** Seller warrants that this product conforms to the ingredient statement on the label. Since conditions of use, such as weather, compatibility with other chemicals, and condition of application equipment, will vary, Seller makes no claims other than those stated on this label.

**CAUTION:** May cause irritation of nose and throat. Do not breathe dust. Harmful if taken internally. This product is toxic to fish. Keep out of lakes, ponds and streams. Do not apply to any area not specified on the label.
