

DIRECTIONS FOR USE
FOR EXTERIOR USE ONLY. DO NOT APPLY TO INDOOR SURFACES OR TO WOOD INTENDED FOR INDOOR USE.

WOOD STRUCTURES
JOISTS AND OTHER WOODWORK: — Use a hand mist type or pressure sprayer. Two flowing coats of Penta 5 are usually sufficient to protect from Lyctus, Powder Post Beetles, and Wood Boring Organisms. Treat all structures which come in contact with the soil. Spray all ends and joints of wood for a distance of 3 to 4 feet as well as sections around chimneys, cellar stairs, vent pipes and porches.

NOTE: WHEN APPLYING WITH A BRUSH make sure that the material penetrates the wood. Make a second application to insure proper treatment. Allow the material to freely flow over the areas to be treated paying special attention to the ends and joints for a distance of 3 to 4 feet.

FENCE POSTS, DOORS, WINDOWS, AND OTHER FABRICATED WOOD PRODUCTS:
 To protect dry and well seasoned fence posts, before placing wood in contact with the soil, dip each wood member for 12 to 48 hours to give effective penetration of the wood. Fabricated products such as doors, windows, etc., should be dipped 3 minutes or 2 flowing brush or spray coats. All wood members should be free of bark before receiving treatment.

TURF
WINTER GRASSES AND BROAD LEAVED WEEDS IN DORMANT BERMUDA TURF To control Chickweed, Hair Grass, Rescue Grass, Cheat, Annual Bluegrass, Plantains, June Grass and Little Barley Grass add 1 qt. and 2 ounces of PENTA 5 to 2 1/2 qts. of Kerosene. Spray this dilute mixture over 1000 sq. ft. of turf area to thoroughly cover the undesirable weeds and grasses. Apply to the lawn only when the Bermuda Grasses are dormant in the fall and winter after the tops have been killed or in early spring before the new growth starts. Do not increase dosage rates since injury may result to the permanent grasses.

NOTICE: Seller warrants that this product conforms to the ingredient statement on the label. Since conditions of use, such as weather, compatibility with other chemicals, and condition of application equipment will vary, Seller makes no claims other than those stated on this label.

NOTE: This product does not mix with the plant system but kills any foliage that is contacted by the spray. Therefore, the proper equipment being used will give a uniform and complete coverage.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: Harmful or fatal if absorbed through the skin. Causes skin irritation. Do not get into eyes. Do not breathe vapor, fumes, or dust. Wear protective clothing, gloves, spraying, and rubber boots when using. Do not use this product in areas where vapors may cause injury to plant and animal life. Do not graze treated areas. Do not use on brushings to livestock.

FIRST AID:
If Swallowed — Drink water and induce vomiting back of the throat with a spoon. Do not induce vomiting by mouth to an unconscious person. Get medical attention.
If In Eyes — Flush with water at least 15 minutes and get medical attention.
If On Skin — Wash with water. Remove and discard clothing before reuse.

ENVIRONMENTAL PRECAUTIONS: This product is toxic to fish and aquatic life. Do not apply where runoff is likely to occur. Use product only as specified.

PHYSICAL OR CHEMICAL PROPERTIES: USE, POUR, SPILL, OR OPEN FLAME. This product is flammable. Keep containers upright.

STORAGE & DISPOSAL: Store away from children, pets, and food. Containers as instructed. Wastes by burying in non-water supplies. Containers should be punched holes in them. DO NOT REUSE. DESTROY WHEN EMPTY.

CLEANING OF EQUIPMENT: is best cleaned by rinsing with water. Soap should be used since slight traces of oil in the sprayer will not contaminate water by cleaning or disposal of wastes.

STOP! READ THE ENTIRE LABEL BEFORE USE. OBSERVE ALL CAUTIONS AND FOLLOW DIRECTIONS CAREFULLY.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: Harmful or fatal if swallowed or absorbed through the skin. Do not take internally. Causes skin irritation and vapor is harmful. Do not get into eyes, on skin or clothing. Do not breathe vapor, fumes or spray mist. Wear protective clothing, fresh air mask when spraying, and rubber gloves when handling freshly treated wood. Wash thoroughly after using. Do not use this product in a confined area where vapors may concentrate and cause injury to plant and animal life. Keep this product away from children, pets and livestock. Do not graze treated areas or feed forage or other material to livestock.

FIRST AID:

If Swallowed — Drink 1 or 2 glasses of water and induce vomiting by touching the back of the throat with a finger or blunt object. Do not induce vomiting or give anything by mouth to an unconscious person. Get medical attention.
If In Eyes — Flush with plenty of water for at least 15 minutes and get medical attention.
If On Skin — Wash with plenty of soap and water. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL PRECAUTIONS: This product is toxic to fish and wildlife. Keep out of lakes, streams, and ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not apply when weather conditions favor drift from areas treated. Do not apply where runoff is likely to occur. Apply this product only as specified on this label.

PHYSICAL OR CHEMICAL HAZARDS: DO NOT USE, POUR, SPILL, OR STORE NEAR HEAT OR OPEN FLAME. This formulation is combustible. Keep container closed when not in use.

STORAGE & DISPOSAL: Keep this product away from children, pets and livestock. Rinse containers as instructed below and dispose of wastes by burying in non crop land away from water supplies. Containers should be disposed of by punching holes in them and burying them. **DO NOT REUSE EMPTY CONTAINER. DESTROY WHEN EMPTY.**

CLEANING OF EQUIPMENT: Spray equipment is best cleaned by rinsing with some of the oil used in spraying. Soapy water may also be used since slight traces of this spray remaining in the sprayer will not be harmful. Do not contaminate water by cleaning of equipment or disposal of wastes.
