

DIRECTIONS FOR USE

ROACHES, ANTS, SILVERFISH, WATERBUGS, CRICKETS, SPIDERS: Infested surfaces should be sprayed until wet. Use heavily in all infested cracks, around baseboards and other places where these insects hide. Also apply until wet, surfaces behind and beneath cabinets, refrigerators, sinks, stoves. Use on other localized areas infested with these pests. Repeat treatment as required.

BROWN DOG TICKS: Thoroughly spray infested areas around baseboards, window and door frames, wall cracks, sleeping quarters of household pets and localized areas of floors and floor coverings. Applications should be repeated as infestations warrant and as re-infestations occur. Fresh bedding should be placed in animal quarters following treatment. Do not treat animal with this formulation.

CARPET BEETLES: Make localized application to areas of the floor and baseboards. Spray directly into cracks and under carpets where insects may be found. Treat crevices, cracks or closets and infested areas of shelving. Repeat as necessary.

FLEAS, CHIGGERS, ANTS, AND BROWN DOG TICKS OUT-DOORS: For treatment of localized infestations of these insects in outdoor areas where there is no vegetation, spray infested areas thoroughly. For ants, thoroughly wet hills and runways. Repeat applications as infestations warrant and as reinfestations occur.

FLIES, MOSQUITOES, WASPS, AND FLYING MOTHS: For outdoor use only as an aid in reducing annoyance from these insects. Spray outside surfaces of screens, doors, and window frames, or wherever these insects may enter the room. Also treat surfaces around light fixtures on porches, in garages, and other places where these insects alight or congregate.
