Mr. Ronald D. Wilson
PBI/Gordon Corporation
1217 West 12th Street
P.O. Box 4090
Kansas City, MO 64101

APR 7 1987

Dear Mr. Wilson:

Subject: Amendment: Add Dandelions
Gordon's MCPA Amine 4
EPA Registration No. 2217-362
Your Submission Dated March 26, 1987

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, is acceptable provided that you:

1. Make the labeling change listed below before you release the product for shipment bearing the amended labeling:
 - Reinstate the grazing restriction for meat and dairy animals for the flax and grain uses and the crayfish farming restriction for the rice use. Refer to pages 18 and 85 of the MCPA Standard.
2. Submit one (1) copy of your final printed labeling before you release the product for shipment.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

Richard F. Mountfort *RFM*
Product Manager (23)
Fungicide-Herbicide Branch
Registration Division (TS-767C)

*See Attached Supplemental Label for Additional Precautionary Statements,
Storage & Disposal and Directions For Use.*

NET CONTENTS 2 1/2 US GALLONS 9.46 liters

BEST AVAILABLE COPY

* LAWNS, GOLF COURSES AND SIMILAR TURF AREAS

Best results are secured when treatment is made in Fall or Spring, when weeds are actively growing. For best results on thistles, treat when in the early bud stage.

Do not apply to newly seeded lawns until grass has become well established.

NOTE: White clover is susceptible to injury. Also in some areas, Bentgrass, Carpet and St. Augustine are susceptible to injury.

SMALL AREAS: Use 3 tablespoons in 3 to 5 gallons of water and apply evenly over 1000 square feet of area. ✓

LARGE AREAS: Use 1 - 4 pints per acre in 10 to 100 gallons of water to give thorough coverage.

BEST AVAILABLE COPY

MCPA LAWN WEED KILLER

A Postemergence Herbicide for the control of broadleaf weeds in Lawns, Golf Courses and Similar Turf Areas.

rates to susceptible annual weeds usually will be satisfactory but for the perennial weeds and other conditions where weed kill is difficult, use higher rates. Some weeds are hard to kill and repeat applications may be necessary.

PREPARATION: Fill spray tank with half the required amount of water, then add the recommended amount of MCPA LAWN WEED KILLER and continue filling spray tank with the balance of water. Keep agitator running when filling the spray tank and during spray operations. Use enough spray volume for uniform coverage by ground application. In any case, use the same amount of MCPA recommended per acre. The amount of water required for low volume applications may vary from 10 to 25 gallons per acre. For high volume applications, 25 to 100 gallons, or more, of water will be necessary for good coverage.

To convert local recommendations into terms of MCPA LAWN WEED KILLER, see the following table:

MCPA ACID	1 1/4 lb	1 lb	3/4 lb	1/2 lb	1/4 lb	1/8 lb
MCPA LAWN WEED KILLER	2 1/2 Pt	2 Pt	1 1/2 Pt	1 Pt	1/2 Pt	1/4 Pt

CONTROLS: Arrowhead, Bulrush, Canada Thistle, Cocklebur, Corn Spurry, Curly Indigo, Hempnettle, Hoary Cress, Kochia, Lambsquarters, Mustards, Perennial Peppergrass, Puncturevine, Purslane, Ragweed, Red Root Pigweed, Red Stem, Sedge, Shepherds Purse, Sow Thistle, Stinkweed, Sunflower, Tartary Buckwheat, Water Plantain, Dandelion.

LAWNS, GOLF COURSES and SIMILAR TURF AREAS: Best results are secured when treatment is made in Fall or Spring, when weeds are actively growing. For best results on thistles, treat when in the early bud stage.

Do not apply to newly seeded lawns until grass has become well established.

NOTE: White clover is susceptible to injury. Also in some areas, Bentgrass, Carpet and St. Augustine are susceptible to injury.

SMALL AREAS: Use 3 tablespoons in 3 to 5 gallons of water and apply evenly over 1000 square feet of area.

LARGE AREAS: Use 1-4 pints per acre in 10 to 100 gallons of water to give thorough coverage.

WARRANTY: The manufacturer warrants that the chemical composition conforms to the ingredient statement given on the label and that this product is suited for the labeled uses when applied according to label directions. Because of widely varying use conditions it is impossible to eliminate all risks even when label directions are followed. Therefore, the manufacturer makes no other implied or express warranty nor is any agent of the manufacturer allowed to do so. Upon purchase of this product, the buyer assumes all risks associated with use of this product. In the event of damage resulting from a breach of warranty the buyer agrees to accept a refund of the purchase price of the product as full discharge of the manufacturer's liability.
