NOTIFICATION LABEL NOT REVIEWED PER PR NOTICE 88-6

DATE: 7/12/93

Explanation: Use additional page(s) if necessary. (For section I and Section II.)

NOTIFICATION:

(1) Revision of the wetlands warning statement within the Environmental Hazards section according to definition stated in Pesticide Regulation (PR) Notice 93-3, "Labeling Statement Prohibiting Application to Water", March 9, 1993. This is to certify that this notification meets every requirement of PR-Notice 88-6. (2) Deletion of the chemigation statement defined in PR Notice 87-1, "Label Improvement Program for Pesticides Applied Through Irrigation Systems." This product is intended for residential use (such as indoor, yard, or garden). (3) Revision of the limited warranty and disclaimer statement. (4) Three copies of the revised labeling are enclosed.

**STOP! READ THE ENTIRE LABEL FIRST. OBSERVE ALL PRECAUTIONS
AND FOLLOW DIRECTIONS CAREFULLY.**

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Harmful if swallowed. Avoid breathing vapors[dust or spray mist]. Avoid contact with eyes, skin or clothing. Wash thoroughly after handling.

Statement of Practical Treatment

IF SWALLOWED: Induce vomiting and seek medical attention immediately.

IF IN EYES OR ON SKIN: Flush eyes thoroughly with water; wash skin thoroughly with soap and water.

NOTE TO PHYSICIAN: Carbaryl is a moderate reversible cholinesterase inhibitor. Atropine is antidotal. Do not use 2-PAM, opiates or cholinesterase inhibiting drugs.

Environmental Hazards

This pesticide is extremely toxic to aquatic and estuarine invertebrates. For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters.

This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

STORAGE & DISPOSAL

STORAGE: Do not contaminate water, food, or feed by storage or disposal. Store in original container in a locked storage area inaccessible to children or animals.

PESTICIDE DISPOSAL: Securely wrap original container in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Do not reuse container. Rinse thoroughly before discarding in trash.

Subsequent planting of food and feed crops in treated soil must be made with crops on this or other carbaryl label(s).

Use SEVIN® 50W INSECTICIDE as a spray. Keep mixtures well agitated. Not effective if used with alkaline chemicals such as Bordeaux, but is compatible with most all fungicides and miticides. Spray thoroughly to cover upper and lower sides of foliage, fruits and vegetables. Do not spray open blossoms since SEVIN® is toxic to honey bees. For continued insect control through the season, plan on a regular spray schedule every 7 to 10 days on all fruits.

APPLES AND PEARS - codling moth, plum curculio, apple aphids, green fruit worms, Japanese beetles, leaf rollers, and San Jose scale - As insects appear, spray, using 2 tablespoonfuls per gallon of water, repeat as needed for control, up to one day before harvest. To avoid fruit thinning, delay use until at least 30 days after bloom (not before second cover).

PEACHES, APRICOTS, PLUMS, AND CHERRIES - plum curculio, Oriental fruit moth, lesser peach tree borer, peach twig borer, cat facing bugs, and San Jose scale - Mix 2 tablespoonfuls per gallon of water. Allow one day between spraying and harvest; three days on Apricots.

SWEET CORN - corn earworm, corn borer, flea beetles, and grasshoppers - Use 2 tablespoonfuls per gallon. Spray every 2 to 3 days for earworms until silks are dry. For other pests, thoroughly treat entire plant every 2 weeks, starting when corn is knee high.

GRAPES - Use 2 tablespoonfuls per gallon for grape leaf folder, grape leaf skeletonizer, grape berry moth, and June beetles. Apply as needed when insects appear. Use up until 7 days before harvest.

STRAWBERRIES - Use 2 tablespoonfuls per gallon for meadow spittlebug, strawberry leaf roller and strawberry weevil. Repeat at 7 to 10 day intervals, or as necessary until one day before harvest.

BEANS - green beans, lima and snap - Use 2 tablespoonfuls per gallon for Mexican bean beetle, bean leaf beetle, flea beetle and stink bugs. Use up until harvest time.

TOMATOES, EGG PLANTS, PEPPERS - For tomato hornworm and fruitworm, Fall armyworm, stink bugs and lace bugs, use 2 tablespoonfuls per gallon. Thoroughly treat. Use until day of picking.

CUCUMBERS, MELONS AND SQUASH - For pickleworm, melonworm, cucumber beetles, flea beetles, leafhoppers, and squash bugs, use 2 tablespoonfuls per gallon. Avoid excessive applications since leaf injury may occur on tender foliage when wet and humidity is high. Allow 3 days before harvest.

CABBAGE, BROCCOLI AND CAULIFLOWER - For control of small cabbage loopers, flea beetles, armyworms and corn earworms - use 2 tablespoonfuls per gallon on a 7 to 10 day spray schedule, allowing 3 days before picking.

ORNAMENTALS - On plants such as roses, gladiolus, lilacs, juniper, elm, boxelder and willow, use 2 tablespoonfuls per gallon and apply when insects appear. Controls bagworms, blister beetles, boxelder bugs, elm leaf beetle, June beetles, leaf rollers, mimosa webworm, periodical cicada, scale insects and willowleaf beetles. Do not use on Boston ivy or Virginia creeper. Repeat as needed.

LIMITED WARRANTY AND DISCLAIMER The manufacturer warrants only that the chemical composition of this product conforms to the ingredient statement given on the label, and that the product is reasonably suited for the labeled use when applied according to the Directions for Use.

THE MANUFACTURER NEITHER MAKES NOR INTENDS ANY OTHER EXPRESS OR IMPLIED WARRANTIES, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WHICH ARE EXPRESSLY DISCLAIMED. This limited warranty does not extend to the use of the product inconsistent with label instructions, warnings or cautions, or to use of the product under abnormal conditions such as drought, excessive rainfall, tornadoes, hurricanes, etc. These factors are beyond the control of the manufacturer or the seller. Any damages arising from a breach of the manufacturer's warranty shall be limited to direct damages, and shall not include indirect or consequential damages such as loss of products or values, except as otherwise provided by law.

The terms of this Limited Warranty and Disclaimer cannot be varied by any written or verbal statements or agreements. No employee or agent of the seller is authorized to vary or exceed the terms of this Limited Warranty and Disclaimer in any manner.

Attention: Dennis Edwards
Product Management Team 19

Subject: Notifications for Revised Labeling according to Pesticide Regulation (PR) Notice 93-3.

Dear Mr. Edwards:

We are submitting notifications for revised labeling to comply with Pesticide Regulation (PR) Notice 93-3, Labeling Statement Prohibiting Application to Water. Fifteen product registrations have been revised:

<u>EPA Reg. No.</u>	<u>Product Name</u>
2217-366	Sevin 50W Insecticide
2217-383	Sevin Dust 5%
2217-389	Gordon's Sevin 50W Spray, A Wettable Powder
2217-527	Methoxychlor Tree Spray
2217-572	Gordon's Sevin Dust 5%, A Multi Purpose Insecticide
2217-600	Liquid Sevin Spray
2217-646	Gordon's Dursban Turf Insecticide
2217-664	Spreader King Dursban Insecticide
33955-408	Acme Fruit Tree Spray
33955-450	Acme Sevin 50W Insecticide
33955-462	Acme Sevin 5% Dura-Dust
33955-533	Acme Sevin Brand Carbaryl Insecticide Liquid Dura-Spray
33955-541	Acme Dursban Granular Insecticide
33955-547	Acme Dursban Insecticide for Lawns and Ornamentals
33955-555	Acme Bendiocarb 1% Homeowner Dust

Enclosed for each of the products shown above are the following:

- a) Three copies of revised labeling.
- b) Application for Pesticide Amendment (EPA Form 8570-1).

If you have any questions, please call me at 816/421-4070.

Sincerely,

James A. Armbruster, Ph.D.
