Directions for Use

Use diazinon spray to treat infestations both inside and outdoors.

INDOOR

ANTS, CRICKETS, GRASSHOPPERS, SILVERFLIES, and TERMITES-- spray infested surfaces until wet. Apply heavily in infested cracks around baseboards, surfaces behind and beneath cabinets, refrigerators, stoves, and sinks as well as all other places where these household insects hide. As required, repeat treatment.

BROWN DOG TICKS--To treat infested areas, spray thoroughly around baseboards, window and door frames, wall cracks, sleeping quarters of household pets, and localized areas of floors and floor coverings. Do not treat animal with this formulation. Fresh bedding should be placed in animal quarters following treatment. Repeat applications as infestations warrant and as re-infestations occur.

CARPET BEETLES--Apply to infested areas of floor and baseboards. Use spray in cracks and under carpets where beetles may be found. Also, spray crevices, cracks, closets, or shelving that is infested. As necessary, repeat application.

OUTDOOR

ANTS, CRICKETS, GRASSHOPPERS, and TERMITES-- see for treatment of localized infestations where there is no vegetation. Spray thoroughly all infested areas and thoroughly wet ant hills and ant runways. Repeat applications as necessary.

FLIES, HOUSEFLIES, MOSQUITOES, and FLYING LICE--Use spray only as an aid in reducing annoyance from these pests. Apply to outside surfaces of screens, doors, window frames, or wherever insects enter the house. Spray surfaces around light fixtures on porches, in garages, and wherever these pests alight or congregate.

CAUTION: Harmful if swallowed, inhaled, or absorbed through the skin. Keep out of reach of children. Avoid contamination of food and foodstuffs. Avoid repeated or prolonged inhalation and skin contact; wash thoroughly after using. Do not use on household pets or humans. Do not allow children or pets to contact treated surfaces until dry.

Combustible mixture: Do not spray, store or use near heat or open flame. Do not smoke while using.
