clover mite spray

also kills

**springtails, book lice, roaches, ants,
silverfish, crickets, and water bugs.**

a residual spray

ACTIVE INGREDIENTS:	
O, O-diethyl O-(2-isopropyl-4-methyl-6-pyrimidinyl) Phosphorothioate.....	0.500%
Pyrethrins.....	0.052%
Technical piperonyl butoxide (equivalent to .209% (Butylcarbityl) (6-propylpiperonyl(ether and .052% related compounds.).....	0.261%
Petroleum distillate.....	<u>69.187%</u>
	70 %
INERT INGREDIENTS:	<u>30 %</u>
Total	100.000%

**CAUTION---Contents under Pressure
Keep out of reach of children
See side panel for additional cautions**

NET CONTENTS 14 FLUID OZ.

U.S.D.A. Reg. No. 2217-X

DIRECTIONS FOR USE

TO OPERATE: Hold can upright and spray infested surfaces lightly. Clover Mite Spray is a low pressure aerosol and sprays large droplets.

CLOVER MITES: In cool weather clover mites may invade the home and congregate around doors and window sills in large numbers. They cause no damage unless they attack house plants. Spray door frames and window sills. Sweep up dead insects. Treat outsides of windows and doors also. The treatment should last for ten to fourteen days, however, repeat as needed for control.

SPRINGTAILS (Snow Fleas): These minute insects appear in enormous numbers in damp areas or during damp cool weather on the soil, on foundations, porches and house sidings. They may invade the home and appear on window sills where they move about very quickly. They do no harm but are extremely unsightly. Spray the window sills and also areas where they may enter porches and homes. Repeat treatment as needed.

BOOK LICE AND SILVERFISH: Books or paper should be removed and containers or shelving should be thoroughly cleaned and sprayed. Apply spray to a dust cloth and wipe each book individually. Treat outsides of containers and replace books. Check possible infestation again in one month and repeat treatment if necessary. Spray the surrounding storage areas.

ROACHES, ANTS, CRICKETS AND WATERBUGS: Thoroughly spray into all cracks and crevices, around baseboards and other places where insects hide. Treat ant trains, treat surfaces behind and beneath cabinets, refrigerators, sinks and stoves. Basements should also be sprayed where insects may hide. Spray the area where the wood comes in contact with the foundation. Repeat treatments as required.

CAUTION

Harmful if swallowed. Keep out of reach of children. Avoid contamination of feed and foodstuffs. Avoid inhalation and skin contacts; wash thoroughly after using. Do not use on household pets or humans. Never set container on stoves, radiators, nor place where temperature will exceed 120° F. and may cause it to burst. Do not puncture or throw container into fire. Remove Pets, Birds and Fish Bowls before spraying.

NOTICE: Seller warrants that this product conforms to the ingredient statement on the label. Since conditions of use, such as weather, compatibility with other chemicals, and condition of application equipment, will vary, Seller makes no claims other than those stated on this label.

COMBUSTIBLE MIXTURE--DO NOT SPRAY NEAR OPEN FLAME. DO NOT SMOKE WHILE USING.
