PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animal

CAUTION: Harmful if swallowed. Avoid breathing spray mist. Avoid contact with skin, eyes, or clothing. When handling this product, wear chemical resistant gloves. Wash thoroughly after handling.

ENVIRONMENTAL HAZARDS: This product is toxic to aquatic invertebrates. Drift or runoff may adversely affect aquatic invertebrates and nontarget plants. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

STORAGE: Store in original container in a locked storage area inaccessible to children and pets.

PESTICIDE DISPOSAL: Securely wrap original container in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Do not reuse container. Rinse thoroughly before discarding in trash.

OTHER USE PRECAUTIONS: Do not allow drift onto vegetables, flowers, ornamental plants, shrubs, trees and other desirable plants since injury may result. Do not pour spray solutions near these plants. Whether using a hose-end sprayer or pressure-sprayer, do not use sprays that are fine because they can drift and cause damage to non-target plants. Coarse droplet sprays are less likely to drift. Use only lawn-type sprayers. Do not spray on bentgrass, carpetgrass, centipedegrass, dichondra, St. Augustine-grass nor on lawns or turf where desirable clovers are present. Do not spray roots of trees and ornamentals. Do not exceed specified dosages for any area; be particularly careful within dripline of tree and other ornamental species.

WHERE TO USE: May be used on bluegrass, bermudagrass and zoysiagrass lawns, vacant lots, playgrounds and other similar areas where HARD-TO-KILL weeds are present. Effective against these weeds such as SHEEP SORREL, KNOTWEED, SPOTTED SPURGE, CHICKWEED, OXALIS and HENBIT.

Also, spray as directed for the control of the following weeds:

- | | | |
|--------------|--------------|--------------|
| Buckhorn | Mallow | Ragweed |
| Chicory | Morningglory | Speedwell |
| Clover | Peppergrass | Wild Carrot |
| Dandelion | Pigweed | Wild Garlic |
| Dock | Plantain | Wild Lettuce |
| Ground Ivy | Poison Ivy | Wild Onion |
| Heal-All | Poison Oak | Yarrow |
| Lambsquarter | Purslane | |

WHEN TO USE: Spray at any time during the growing season when weeds are actively growing. Treat chickweed, henbit, wild onion and garlic in the fall and again in the spring if needed. On new grass lawns wait until the turf has reached a height of 2 inches before making an overall spray treatment. Spot spray treatments may be made at any time with a small pressure sprayer. Wait 2 weeks before seeding or planting stolons, plugs or sprigs. Do not spray weeds during drought periods unless the lawn has been thoroughly watered 2-3 days before.

1 pint in 6 gals.	1 pint for 24 gals.	5280 sq. ft.

*For lawn hose end sprayers dilute the amount shown above with enough water to fill the sprayer bottle to the 2 gal. level for 330 sq. ft. -- to the 6 gal. level for 1320 sq.ft. -- to the 12 gal. level for 2640 sq. ft.

TO SPOT-SPRAY WEEDS

Lawn hose end sprayers are not suited for this type of treatment. Use a pressure sprayer. Mix 8 fl. oz. of this product in 3 gals of water and spray each weed to point of spray run-off.

For best results use a spreader sticker when making application.
