TRIMECTM
WEED-'N-FEED

ACCEPTED
 8-7-69
 UNDER THE FEDERAL INSTITUTE OF
 PESTICIDE AND FERTILIZER ACT
 FOR ECONOMIC CONTROL
 REGISTER NO. 2217-489

In addition to the 20-10-5 fertilizer, this product contains the new patented formulation of Trimec Turf Herbicide. The fertilizer supplies a generous portion of the plant food needed for normal season's growth and the herbicide controls hard-to-kill weeds such as chickweed, black medic, ground ivy, knotweed, plantain, dandelions, henbit, spurge and most other common lawn weeds.

The weed killing benefits derived from this product are far superior to any other herbicide on the market. Increased herbicide content hastens weed kill and provides longer weed control. However, if adverse low moisture conditions prevail and weeds are in a state of poor growth, possible retreatment may be necessary with a Trimec liquid formulation when conditions improve.

WHEN TO APPLY: For best results apply when weeds are growing vigorously in the spring or early fall after heavy rains.

The material may be used on bluegrass, fescue, rye, Bermuda and zoysia lawns. Normally, at this time there is sufficient moisture for excellent response from the fertilizer as well as very effective weed control.

Weed-'N-Feed with Trimec is a remarkably effective premium lawn food which combines the advantages of both fast and long lasting feeding action plus the broad range of weed control of the Trimec. The fertilizer produces a thick, green turf while killing weeds to make way for turf growth. Weeds contacted by the product stop growing, gradually die and disappear from the lawn.

- COVERS 5,000 SQ. FT. -

HOW MUCH TO USE: This 22 lb. bag of Weed-'N-Feed with Trimec should be used on 5,000 sq. ft. Apply evenly with a lawn spreader either as a one pass application or a two pass application, criss-crossing the area at half the rate each time. To get maximum weed killing results, do not rake, mow, or water the lawn for at least 24 hours after spreading the product.

Lawns which are heavily overrun by weeds and are in poor condition may require more than one application of this product. A suggested second application could be made in approximately 30 days.

CAUTION: Avoid inhaling dust or contact with skin, eyes and clothing. Do not use this product where desirable clovers are present or allow the product to "wind drift" on flowers, vegetables or ornamental shrubbery. Do not apply to newly seeded lawns. During application close spreader openings when turning. Apply when the air is calm. Keep away from fertilizers, seeds, insecticides or fungicides. Do not apply to areas underlaid by roots of desirable trees and shrubs. Spreader setting should be calibrated as follows:

Scott	6
Lawn Beauty	5
Jackson	7 1/2
Sears	4

The above spreader settings are approximate. Check your spreader on 100 sq. ft. and adjust to apply on 1/2 lb. per 100 sq. ft. Use normal rate of walk when applying to avoid an error on rate of application.

NOTICE: Seller warrants that this product conforms to the ingredient statement on the label. Since conditions of use, such as weather, compatibility with other chemicals and condition of application equipment, will vary, Seller makes no claims other than those stated on this label.

FERTILIZER GUARANTEE

Total Nitrogen (not less than)	20%
Water Insoluble Nitrogen (not less than)	5%
Available Phosphoric Acid (not less than)	10%
Soluble Potash (not less than)	3%

A 20-10-5 Lawn Fertilizer Plus Trimec* a New Patented Herbicide (U. S. Patent 3,284,186) Containing 2,4-D Plus MCPP and Dicamba

- KILLS WEEDS -
- FEEDS THE LAWN -

CHICKWEED, DANDELION, KNOTWEED, PLANTAINS, HENBIT, SPURGE AND MANY OTHER WEEDS AS LISTED.

ACTIVE INGREDIENTS:

Dimethylamine salt of 2,4-dichlorophenoxy-acetic acid	0.630%
Dimethylamine salt of 2-(2-methyl-4-chlorophenoxy) propionic acid	0.640%
Dimethylamine salt of Dicamba (3,6-dichloro-anisic acid)	0.056%
INERT INGREDIENTS	98.674%
Total	100.000%

Acid Equivalents: 2,4-D .53% -- MCPP .53% -- Dicamba .047%

CAUTION: Keep Out of Reach of Children
 See Back Panel for Additional Cautions

NET WEIGHT 22 POUNDS
