WEED-'N-FEED

In addition to the 20-10-5 fertilizer, this product contains the new patented formula-ACCEPTE Dition of Trimec Turf Herbicide. The fertilizer supplies a generous portion of the plant food reeded for normal season's growth and the herbicide controls hard-tokili weeds such as chickweed, black medic, ground ivy, knotweed, plantain, dandelions, henbit, spurge and most other common lawn weeds.

> The weed killing benefits derived from this product are far superior to any other herbicide on the market. Increased herbicide content hastens weed kill and provides longer weed control. However, if adverse low moisture conditions prevail and weeds are in a state of poor growth, possible retreatment m y be necessary with

ED UNGER NO. 22/17-489 WHEN TO APPLY. For best results apply when weeds are growing vigorous, in

The material may be used on bluegrass, fescue, rye, Bermuda and zoysia lawns. Normally, at this time there is sufficient moisture for excellent response from the fertilizer as well as very effective weed control.

Weed-'N-Feed with Trimec is a remarkably effective premium lawn food which combines the advantages of both fast and long lasting feeding action plus the broad range of weed ontrol of the Trimec. The fertilizer products a thick, green turf while killing weeas to make way for turf growth. Weeds contacted by the product stop growing, gradually die and disappear from the lawn.

-- COVERS 5,000 SQ. FT. -

HOW MUCH TO USE: This 22 lb. bag of Weed-'N-Feed with Trimec should be used on 5,000 sq. ft. Apply evenly with a lawn spreader either as a one pass application or a two pass application, criss-crossing the area at half the rate each time. To get maximum weed killing results, do not rake, mow, or water the lawn for at least 24 hours after spreading the product.

Lawns which are heavily overrun by weeds and are in poor condition may require more than one application of this product. A suggested second application could be made in approximately 30 days.

CAUTION: Avoid innaling dust or contact with skin, eyes and clothing.

Do not use this product where desirable clovers are present or allow the product to "wind drift" on flowers, vegetables or ornamental shrubbery. Do not apply to newly seeded lawns. During application close spreader openings when turning. Apply when the air is calm. Keep away from fertilizers, seeds, insecticides or fungicides. Do not apply to areas underlaid by roots of desirable trees and shrubs. Spreader setting should be calibrated as follows:

Scott	6
Lown Beauty	5
Jeckson	71.2
Sears	4

The above spreader settings are approximate. Check your spreader on 100 sq. ft. and adjust to apply on 12 lb. per 100 sq. ft. Use normal rate of walk when applying to avoid an error on rate of application.

NOTICE: Seller warrants that this product conforms to the ingredient statement on the label. Since conditions of use, such as weather, compatibility with other chemicals and condition of application equipment, will vary, Seller makes no claims other than those stated on this label.

MANUFACTURING CONCENTRATE

For use in formulating a liquid Turf Herbicide.

Not for resale.

CAUTION—Harmful if swallowed. Do not get in eyes, on skin or clothing. In case or contact, wash with soap and water.

Do not contaminate or store near feed or foodstuffs.

Avoid inhalation of spray mist.

DON'T OVER DOSE! Follow directions carefully. Do not let spray drift to sensitive plants such as vegetables, legumes, grapes, flowers, cotton or other 2,4-D susceptible plants. Use coarse spray when there is less chance for "wind drift." Do not store near fertilizers, seeds, insecticides or fungicides. Do not contaminate water to be used for domestic or irrigation purposes. Local Spray conditions will vary. Check local recommendations first. Use separate spray equipment for insecticides and fungicides. Do not reuse empty container. Wash thoroughly with water and detergent. Discard in a safe place. Do not make aerial applications near cotton or sensitive plants.

NOTICE: Seller warrants that this product conforms to the ingredient statement on the label. Since conditions of use, such as weather, compatibility with other chemicals, and condition of application equipment, will vary, Seller makes no claims other than those stated on this label.
