# GORDON'S

## WASP & HORNET BOMB

### DIRECTIONS FOR APPLICATION

**WASPS, HOENETS AND OTHER WASPS**—The wasps will spray large numbers of nests in the soil. Spray the soil with the bomb when the wasps are on the surface. Repeat as needed for control. Treat digger wasp (Cicadae killers) entry ways into the soil after dark and seal the opening with dirt. Repeat as needed.

**CLOVER MITES**—Clover mites may invade the home in cool weather and appear on windowsills where they become unsightly. They do no harm but are extremely bothersome. Spray the outside windowsills only, also areas where the mites may enter porches, windows, and halls. Repeat treatment as needed. Do not apply to screens.
