digger wasp (Cicadae killers) entry ways into the soil after dark and seal the opening with dirt. Repeat as needed.

CLOVER MITES — Clover mites may invade the home in cool weather and appear on windowsills where they become unsightly. They do no harm but are extremely bothersome. Spray the outside windowsills only, also areas where the mites may enter porches, windows, and halls. Repeat treatment as needed. Do not apply to screens.

CAUTION: Harmful if swallowed. Avoid inhalation and contact with skin. Wash thoroughly after using. Keep out of reach of children. Do not use in areas of food and food-stuffs. Do not use in areas where birds, cats, dogs, or other animals are present. Do not use in areas where children play.

Do not use in areas where children play. Do not use in areas where children play. Do not use in areas where children play.

Do not use in areas where children play. Do not use in areas where children play. Do not use in areas where children play.
