The Certification of Compliance for the 2,4-D Exposure Reduction Program

"I, being an authorized representative of PBI/Gordon Corporation, certify that all containers of **Gordon's Broadleaf and Brushkiller 879 (2217-536)** produced by June 15, 1994 for products registered for use only on residential or turf sites, excluding sod farms will bear revised labeling in accordance with the revised labeling required for Task Force technical and manufacturing-use products. I further certify that all containers of said product sold or distributed by this company by January 1, 1995 for products registered for use only on residential or turf sites, excluding sod farms will bear revised labeling in accordance with the revised labeling required for Task Force technical and manufacturing-use products."

# GORDON'S BROADLEAF WEED & BRUSH KILLER 879

ONE QUART COVERS 10,000 SQ. FT.

- TO CONTROL BROADLEAF WEEDS IN LAWNS. -

Controls ASH, ASPEN, BRAMBLES, CLOVER, DANDELION, HENBIT, KNOTWEED,  
KUDZU, PLANTAIN, POISON IVY, POISON OAK, SPURGE  
and other broadleaf weeds and brush.

-- KEEP FROM FREEZING --

### ACTIVE INGREDIENTS:

*Dimethylamine Salt of 2,4-Dichloro- phenoxyacetic acid.....	12.11%
**Dimethylamine Salt of 2-(2-methyl-4- chlorophenoxy)propionic acid.....	5.84%
***Dimethylamine Salt of Dicamba (3,6-dichloro-o-anisic acid).....	1.34%
INERT INGREDIENTS.....	<u>80.71%</u>
Total	100.00%

### THIS PRODUCT CONTAINS:

- \*0.88 lb. 2,4-Dichlorophenoxyacetic acid equivalent per gallon or 10.06%
- \*\*0.42 lb. 2-(2-methyl-4-chlorophenoxy) propionic acid equivalent per gallon or 4.83%
- \*\*\*0.098 lb. 3,6-dichloro-o-anisic acid equivalent per gallon or 1.11%

Isomer Specific by AOAC Methods.

**STOP! READ THE ENTIRE LABEL FIRST. OBSERVE ALL PRECAUTIONS AND FOLLOW DIRECTIONS CAREFULLY.**

**PRECAUTIONARY STATEMENTS**

**Hazards to Humans and Domestic Animals**

**DANGER:** Corrosive, causes irreversible eye damage. Harmful if swallowed. Avoid contact with eyes, skin or clothing. Wear long pants, long-sleeved shirt, shoes and gloves when mixing, loading or applying this product. Wear face shield or goggles when mixing, loading or applying this product. When handling this product, wear chemical resistant gloves.

When using this product, wear long-sleeved shirt, long pants, socks, shoes, rubber gloves and eye protection. It is recommended that safety glasses include front, brow and temple protection. After using this product, rinse gloves before removing, remove clothing and launder separately before reuse, and promptly and thoroughly wash hands and exposed skin with soap and water. Remove saturated clothing as soon as possible and shower.

In case of contact, immediately flush eyes with plenty of water and get medical attention. In case of skin contact, immediately flush with water and get medical attention if irritation persists.

**ENVIRONMENTAL HAZARDS:** This product is toxic to aquatic invertebrates. Drift or runoff may adversely affect aquatic invertebrates and nontarget plants. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters. When cleaning equipment, do not pour the washwater on the ground; spray or drain over a large area away from wells and other water sources.

Most cases of groundwater contamination involving phenoxy herbicides such as 2,4-D and MCPP have been associated with mixing/loading and disposal sites. Caution should be exercised when handling 2,4-D and MCPP pesticides at such sites to prevent contamination of groundwater supplies. Use of closed systems for mixing and transferring this pesticide will reduce the probability of spills. Placement of the mixing/loading equipment on an impervious pad to contain spills will help prevent groundwater contamination.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not allow people (other than applicator) or pets on treatment area during application. Do not enter treatment areas until spray has dried or dust has settled.

**STORAGE & DISPOSAL**

**STORAGE:** Keep from freezing. Store in original container in a locked storage area inaccessible to children and pets. Do not store near food or feedstuffs.

**PESTICIDE DISPOSAL:** Securely wrap original container in several layers of newspapers and discard in trash.

**CONTAINER DISPOSAL:** Do not reuse container. Rinse thoroughly before discarding in trash.

**OBSERVE THESE USE PRECAUTIONS:**

Do not apply this product through any type of irrigation system. Avoid drift of spray mist onto vegetables, flowers, ornamental plants, shrubs, trees and other desirable plants. Do not pour spray solutions near these plants. Do not spray on carpetgrass, dichondra, nor on lawns or turf where desirable clovers are present. Use only lawn-type sprayers. Coarse spray droplets are less likely to wind-drift and thus help:

**BEST AVAILABLE COPY**

prevent damage to nearby plants. Do not spray roots of desirable trees and ornamentals. Do not exceed specified dosages for any area; be particularly careful within the dripline of desirable trees and other ornamentals. Do not spray while grass is emerging from dormancy. Do not apply to newly seeded lawns until well established. New seed can be sown 3 to 4 weeks after application. Some injury can be expected to turf if used on St. Augustinegrass or centipedegrass; "spot spray" weeds and brush on these grasses. Clover present will be damaged if sprayed. After using this product, clean sprayer with soap or detergent and water. Rinse sprayer thoroughly before putting other pesticides in it. Failure to observe the above precautions may result in injury.

**BROADLEAF WEEDS/WHERE TO USE:** GORDON'S BROADLEAF WEED & BRUSH KILLER may be used on bahiagrass, bermudagrass, bluegrass, fescue, perennial ryegrass or zoysiagrass lawns, vacant lots, playgrounds and other similar non-crop areas where broadleaf weeds are present. This product is especially effective on hard-to-kill weeds such as poison ivy, poison oak, sheep sorrel and spurge. In addition, it controls most other broadleaf weeds, including sensitive weeds like chickweed, clover, dandelion, knotweed and plantain. A partial list is given on the side panel.

The maximum application rate to turf is 1.4 pounds 2,4-D acid equivalent per acre per application per site. The maximum number of broadcast applications per treatment site is 2 per year.

**BROADLEAF WEEDS/WHEN TO USE:**

1. Spray at any time during the growing season when weeds are actively growing.
2. On new lawns, wait until the grass has reached a height of 2 inches before making an overall spray treatment. However, a "spot-treatment" may be made any time with a small pressure-sprayer. Wait 3 to 4 weeks before seeding or planting stolons, plugs, or sprigs.
3. Poor weed control may result if spray is applied during drought or just before rain.
4. For best results, mow before treating.
5. Do not water lawn within 24 hours after treatment.

**BROADLEAF WEEDS/HOW MUCH TO USE (Entire Lawn) HOSE-END SPRAYER:** Use a hose-end sprayer designed for lawns. Put recommended amount of product (Column 1) in bottle and add water to indicated level (Column 2), and spray on area shown (Column 3). For example, to spray 850 sq. ft. measure 5 tablespoons (2 1/2 fl. ozs.) in jar, add water to the 5 gals. level, mix, and turn on hose and spray over 850 sq. ft.

Column 1 Amt. to Use (Tbsp.)	(FL.Oz.)	Column 2 Fill Bottle To: (Gallons)	Column 3 Area to Treat: (Sq. Ft.)
1	1/2	1	170
2	1	2	340
5	2 1/2	5	850
10	5	10	1700
15	7 1/2	15	2550
20	10	20	3400
32	16	32	5440

**BROADLEAF WEEDS/HOW MUCH TO USE (Entire Lawn) PRESSURE SPRAYER:** Measure indicated amount of product into tank and dilute with water according to the following chart. Use a spray pattern which gives small spray droplets without any fine mist. Cover the area indicated.

Amt. to Use		Amt. Water in	Area to be Sprayed
(Tbsp.)	(Fl. Oz.)	Sprayer (Gals.)	(Sq. Ft.)
2	1	1/2	335
4	2	1	670
8	4	2	1300
12	6	3	2000

NOTE: Whether using a hose-end or pressure sprayer, avoid fine-mist sprays. A fine-mist spray can drift, causing damage to ornamental or garden plants. Use coarse spray droplets.

**BROADLEAF WEEDS/HOW MUCH TO USE (Spot-Spraying):** To spray small areas or individual weeds, do not use a hose-end sprayer. Mix 1 fl. oz. (2 tbsp.) in a half-gallon of water in pressure sprayer and spray as required being certain to "wet" each weed.

**GENERAL BRUSH CONTROL:** For control of brush along roads and other similar non-crop areas, mix 4 1/2 fl. oz. (9 tbsp.) to 6 1/2 fl. oz. (13 tbsp.) in 3 quarts of water and apply over 1,000 sq. ft. Use the higher rate for larger or more dense brush stands. Best results are obtained when brush is young and actively growing. Do not cut brush until the product has translocated throughout the plant causing root death.

**CONTROLS:**

**SENSITIVE WEEDS:**

- |             |              |                |
|-------------|--------------|----------------|
| Bedstraw    | Dandelion    | Purslane       |
| Black Medic | Knotweed     | Ragweed        |
| Buckhorn    | Lambsquarter | Shepherdspurse |
| Chickweed   | Peppergrass  | Wild Lettuce   |
| Clover      | Plantain     |                |

**HARD-TO-KILL WEEDS:**

- |            |              |             |
|------------|--------------|-------------|
| Chicory    | Morningglory | Speedwell   |
| Dock       | Oxalis       | Spurge      |
| Ground Ivy | Pigweed      | Wild Carrot |
| Heal-All   | Poison Ivy   | Wild Onion  |
| Lespedeza  | Poison Oak   | Yarrow      |
| Mallow     | Sheep Sorrel |             |

**BRUSH:**

- |              |                 |                |
|--------------|-----------------|----------------|
| Ash          | Gooseberry      | Poison Ivy     |
| Aspen        | Honeylocust     | Poison Oak     |
| Birches      | Kudzu           | Shortleaf Pine |
| Black Cherry | Multiflora Rose | Thistle        |
| Brambles     | Oak             | Willows        |
| Elms         |                 |                |
