Statement Of Practical Treatment

IF ON SKIN: Wash with plenty of soap and water. Get medical attention if irritation persists.

IF IN EYES: Flush eyes with plenty of water. Get medical attention.

ENVIRONMENTAL HAZARDS:

This product is toxic to aquatic invertebrates. Drift or runoff may adversely affect aquatic invertebrates and nontarget plants. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters. Do not contaminate domestic or irrigation waters. Do not apply when weather conditions favor drift from target area.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not allow people (other than applicator) or pets on treatment area during application. Do not enter treatment area until spray has dried or dust has settled.

STORAGE AND DISPOSAL

STORAGE: Store in original container in a locked storage area inaccessible to children and pets.

PESTICIDE DISPOSAL: Securely wrap container in several layers of newspapers and discard in trash.

CONTAINER DISPOSAL: Do not reuse container. Rinse thoroughly before discarding in trash.

OTHER USE PRECAUTIONS:

Do not allow spray to drift onto vegetables, flowers, ornamental plants, shrubs, trees and other desirable plants since injury may result. Do not pour spray solutions near these plants. Avoid fine mist sprays. Coarse spray droplets are less likely to wind drift and cause damage to nontarget plants. Do not spray roots of desirable trees and shrubs. Do not exceed specified dosage; be particularly careful within dripline of tree and other ornamental species. This product is intended for spot spraying individual weeds only.

WHAT IT IS & HOW TO USE IT:

Gordon's Spot Weeder contains Trimec® turf herbicide, a combination of three proven weed killers 2,4-D, Mecoprop and Dicamba. Together they control a wide range of broadleaf lawn weeds; some of which are listed on this label.

Use to spot treat weeds in the lawn. For best results, apply when weeds are actively growing. Do not water within 24 hours after spraying. Use as is. Do not mix. Do not dilute. Aim at weed and spray. Only a short burst is needed. Overspraying only wastes the product and may cause damage to grasses such as centipedegrass, St. Augustinegrass, and Floratam. Effects begin to show after a few days and weeds gradually die. Up to 4 weeks may be required for complete kill. Be patient, Gordon's Trimec® Spot Weeder works slowly. Repeat in 3 to 4 weeks if necessary.

4015

For lawns with many weeds, requiring an overall treatment, spray with Acme Trimec® Lawn Weed Killer, a concentrate you'll have to mix with water in your hose end or hand-operated sprayer.
