PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals:

CAUTION: Harmful if swallowed. Avoid contact with eyes, skin or clothing. Wear long pants, long-sleeved shirt, shoes and gloves when mixing, loading or applying this product. Wear face shield or goggles when mixing, loading or applying this product. When handling this product, wear chemical resistant gloves. In case of contact, immediately flush eyes or skin with plenty of water. If irritation develops get medical attention. Avoid contamination of food or feedstuffs.

ENVIRONMENTAL HAZARDS: This product is toxic to aquatic invertebrates. Drift or runoff may adversely affect aquatic invertebrates and nontarget plants. Do not apply directly to water or wetlands (swamps, bogs, marshes, and potholes). Do not contaminate water when disposing of equipment washwaters. When cleaning equipment, do not pour the washwater on the ground; spray or drain over a large area away from wells and other water sources. Do not contaminate domestic or irrigation waters. Do not apply when weather conditions favor drift from target area.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not reenter or permit other to reenter treated areas until sprays have dried or dusts have settled.

Most cases of groundwater contamination involving phenoxy herbicides such as 2,4-D and MCPP have been associated with mixing/loading and disposal sites. Caution should be exercised when handling 2,4-D and MCPP pesticides at such sites to prevent contamination of groundwater supplies. Use of closed systems for mixing and transferring this pesticide will reduce the probability of spills. Placement of the mixing/loading equipment on an impervious pad to contain spills will help prevent groundwater contamination.

STORAGE AND DISPOSAL

STORAGE: Keep from freezing. Store in original container in a locked storage area inaccessible to children and pets. Do not store near food or feedstuffs. To prevent cross-contamination, do not store near fertilizers, insecticides, fungicides or near seeds.

PESTICIDE DISPOSAL: Securely wrap original container in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Do not reuse can. Rinse thoroughly before discarding in trash.

OTHER USE PRECAUTIONS:

Do not apply this product through any type of irrigation system. Do not allow spray to drift onto vegetables, flowers, ornamental plants, shrubs, trees and other desirable plants since injury may result. Do not pour spray solutions near these plants. Whether using a hose-end sprayer or pressure-sprayer, do not use fine sprays because they can drift and cause damage to non-target plants. Coarse droplet sprays are less likely to drift. Use only lawn-type sprayers. Do not spray on carpetgrass, dichondra, nor on lawns or turf where desirable clovers are present. Do not spray roots of trees and ornamentals. Do not exceed specified dosages for any area, be particularly careful within dripline of tree and other ornamental species. This product may be injurious to St. Augustine and Centipede grasses. Since injury can be expected, "spot-spray" weeds only with a pressure-sprayer.

WHERE TO USE: BL 8,000 Lawn Weed Killer may be used on Bahia, Bermuda, Bluegrass, Fescue, Rye or Zoysia lawns, vacant lots, playgrounds and other similar areas where broadleaf weeds are present. This product is especially effective on all hard-to-kill weeds such as Poison Ivy, Poison Oak, Sheep Sorrel and Spurge. In addition, BL 8,000 Lawn Weed Killer controls most other broadleaf weeds, including sensitive weeds such as Chickweed, Clover, Dandelion, Knotweed and Plantain. A partial list is given on the side panel.

WHEN TO USE:

1. Spray at any time during the growing season when weeds are actively growing.
2. On new lawns, wait until the grass has reached a height of 2 inches before making an overall spray treatment. However, a "spot-treatment" may be made at any time with a small pressure-sprayer, spraying only the weeds at ground level. Wait 3 weeks before putting new grass seed or stolons down in the bare spots.
3. Poor weed control may result if spray is applied during drought or just before rain.
4. For best results, mow before treating.
5. Do not water lawn within 24 hours after treatment.

HOW MUCH TO USE (Entire Lawn): HOSE-END SPRAYER: Use a hose-end sprayer designed for lawns. Put recommended amount of product (Column 1) in bottle and add water to indicated level (Column 2), and spray on area shown in Column 3. For example, to spray 2,500 square feet measure 10 ounces. (20 tbsp.) in jar, add water to the 10 gallon level, and mix. Turn on hose and spray as evenly as possible over 2,500 square feet.

NOTE: If you have a CHEMLAWN APPLICATOR, use pint BL 8,000 Lawn Weed Killer in 2 1/2 gallons of spray and cover 4,000 square feet.

Column 1 Amt. Lawn Weed Killer to use (Tbsp.) (Fl. Oz.)		Column 2 Fill Bottle To (Gallons)	Column 3 Area to Treat (Sq. Ft.)
10	5	5	1,250
20	10	10	2,500
30	15	15	3,750
40	20	20	5,000

PRESSURE-SPRAYERS: Measure indicated amount of BL 8,000 Lawn Weed Killer into tank and dilute with water according to the following chart. Use a spray pattern that gives small spray droplets without any fine mist, and cover the area indicated.

Amt. Lawn Weed Killer to use (Tbsp.) (Fl. Oz.)		Amt. of water in sprayer (Gallons)	Area to be sprayed (Sq. Ft.)
2	1	1	250
4	2	2	500
6	3	3	750

SPOT-SPRAYING: To spray small areas or individual weeds, do not use a hose-end sprayer. Mix 1 oz. (2 tbsp.) in 1/2 gallon of water in a pressure-sprayer, and spray as required, being certain to wet each weed.
