GORDON'S

rose and flower spray

thoroughly to wet both sides of leaves and insects that are present. Do not overspray, as propellant freezing may result, but repeat treatments as necessary.

To control black spot and powdery mildew on roses: Apply when new growth appears in the spring and repeat at 7 to 10 day intervals throughout the season. Hold dispenser about 18" from foliage. Spray lightly but thoroughly to wet both sides of leaves. Burning will result from overspraying.

May be used on African Violets, Asters, Azaleas, Begonias, Camellias, Carnations, Chrysanthemums, Dahlias, Delphinium, Geraniums, Gladiolus, Grape Ivy, Fuchsia, Marigolds, Rhododendrons, Roses, Zinnias and other
