This product may be applied to established lawns of bermudagrass, bentgrass, bahiagrass, centipedegrass, Kentucky bluegrass, fescues, perennial ryegrass, zoysiagrass, and St. Augustinegrass. #### II. Advertising claims that may be presented on the retail containers:

♦ An advisory for fertilizers containing iron:

This product may stain concrete and stone. Where spilling occurs, sweep off immediately, then flush with water.

- (Brand Name) enhances the fertilizer portion of this product with Agrico Turf<sup>®</sup>, a stabilized form of urea nitrogen that remains in the stable available ammonium form for longer periods of time. Agrico Turf<sup>®</sup>, when watered into the soil, attaches itself to clay particles where it remains for use by the plant, longer than if unstabilized. The result is a lawn that is greener longer than if fertilized with unstabilized urea nitrogen. Added iron and other essential micronutrients promote root development, color enhancement, and seed production.
- Contains Trimec<sup>®</sup> Herbicide.
