

TRIMEC[®] DMB MIX NO. 1

FOR MANUFACTURING PURPOSE ONLY

Contains New Patented TRIMEC[™] Weed Killer

U.S. Patent No. 3,284,186

ACTIVE INGREDIENTS:

2,4-dichlorophenoxyacetic acid	10.00%
2-(2-methyl-4-chlorophenoxy) propionic acid	6.00%
Dimethylamine salt of Dicamba (2-methoxy-3,6-dichlorobenzoic acid)**	3.61%
INERT INGREDIENTS	80.39%
Total	100.00%

Equivalent to 3% Banvel "D"[®] acid

**Contains Banvel[®]

CAUTION:

Keep Out of Reach of Children

Do NOT Store with Foodstuffs

CAUTION

Avoid contact with skin, eyes or clothing. In case of contact, flush with plenty of water. For eyes get medical attention.

Avoid breathing dust or spray mist. Avoid contamination of feed and foodstuffs.

Do not transport or store near fertilizer, seeds, insecticides, fungicides or live plants. Do not contaminate water used for irrigation or domestic purposes or waters inhabited by fish.

NOTICE: Seller warrants that this product conforms to the ingredient statement on the label. Since conditions of use, such as weather, compatibility with other chemicals, and condition of application equipment, will vary, Seller makes no claims other than those stated on this label.

DIRECTIONS FOR USE

GENERAL INFORMATION: This product contains TRIMEC® HERBICIDAL CONCENTRATE (1), a new herbicidal formulation designed to keep the herbicide in the weed zone on the surface on a 20-10-5 lawn fertilizer.

The weed killing benefits from WEED & FEED are especially important because excellent control results from minimum amounts of chemical. However, if adverse low moisture conditions prevail and weeds are in a state of poor growth, possible retreatment may be necessary with a TRIMEC® liquid formulation when conditions improve.

WHEN TO APPLY: For best results apply when weeds are growing vigorously in the spring or early fall after heavy rains.

The material may be used on bluegrass, fescue, rye, Bermuda and zoysia lawns. Normally, at this time there is sufficient moisture for excellent response from the fertilizer as well as very effective weed control.

WEED & FEED is a remarkably effective lawn food which combines the advantages of both fast and long lasting feeding action plus the broad range of weed control of the TRIMEC® herbicide. The fertilizer produces a thick, green turf while killing weeds to make way for turf growth. Weeds contacted by the product stop growing, gradually die and disappear from the lawn.

- COVERS 5,000 SQ. FT. -

HOW MUCH TO USE: This 20 lb. bag of Weed & Feed should be used on 5,000 square feet. Apply evenly with a lawn spreader either as a one-pass application or a two-pass application, criss-crossing the area at half the rate each time.

To get maximum weed killing results, do not rake, mow, or water the lawn for at least 24 hours after spreading the product.

Lawns which are heavily overrun by weeds and are in poor condition may require more than one application of this product. A suggested second application could be made in approximately 30 days.

CAUTION: Harmful if swallowed. Avoid inhaling dust or contact with skin, eyes and clothing. Do not use this product where desirable clovers are present or allow the product to "wind drift" on flowers, vegetables or ornamental shrubbery. Do not apply to newly seeded lawns. During application close spreader openings when turning. Apply when the air is calm. Keep away from fertilizers, seeds, insecticides or fungicides. Do not apply in areas underlaid by roots of desirable trees and shrubs. Do not reuse container. Destroy by burying in a safe place. Do not burn.

Spreader setting should be calibrated as follows:

Scott	6
Lawn Beauty	5
Jackson	7½
Sears	4

The above spreader settings are approximate. Check your spreader on 100 sq. ft. and adjust to apply on ½ lb. per 100 sq. ft. Use normal rate of walk when applying to avoid an error on rate of application.

The following is a partial list of weeds controlled by this product.

Bedstraw	Ground Ivy	Peppergrass	Speedwell
Black Medic	Heal-all	Pigweed	Spurge
Buckhorn	Henbit	Plantains	Thistle
Burdock	Knotweed	Poison Ivy	Wild Carrot
Chicory	Lambsquarter	Poison Oak	Wild Garlic
Chickweed	Lespedeza	Purslane	Wild Lettuce
Clover	Mallow	Ragweed	Wild Onion
Dandelion	Morning Glory	Sheep Sorrel	Yarrow
Deck	Oxalis	Shepherd's Purse	

NOTICE: Seller warrants that this product conforms to the ingredient statement on the label. Since conditions of use, such as weather, compatibility with other chemicals, and condition of application equipment, will vary, Seller makes no claims other than those stated on this label.

FERTILIZER GUARANTEE

Total Nitrogen (not less than)	20%
Water Insoluble Nitrogen (not less than)	5%
Available Phosphoric Acid (not less than)	10%
Soluble Potash (not less than)	5%
