**PRECAUTIONARY STATEMENTS**

**Hazards to Humans & Domestic Animals**

**CAUTION** Harmful if swallowed. Do not inhale dust. Do not allow contact with skin, eyes or clothing. Wash thoroughly after handling.

**Environmental Hazards**

Keep out of lakes, streams and ponds. Do not apply when weather conditions favor drift from target area. Do not use water used for irrigation or domestic purposes.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with the labeling.

**STORAGE & DISPOSAL**

Do not store near other pesticides or seeds. Do not reuse empty container. Wrap and put in trash collection.

**USE PRECAUTIONS**

Do not use this product where desirable clovers are present or allow the material to wind drift onto flowers, vegetables or ornamental shrubbery. Apply when the air is calm. Do not apply to newly seeded lawns. Do not apply in areas overlaid by roots of desirable trees and shrubs. During application, close spreader openings when turning. Do not contaminate domestic or irrigation waters.

**INSTRUCTIONS**

Gordon's Weeder Granules contains TRIMEC<sup>®</sup> herbicide, a patented combination of three proven weed killers - 2,4-D, Mecoprop and Dicamba. Together they eliminate a wide range of lawn weeds, including dandelion, chickweed, knotweed, plantains, henbit, spurge and many others commonly found in home lawns. Possible retreatment may be necessary if (a) lawn is heavily overrun by weeds, (b) if adverse low moisture conditions prevail and weeds are in a state of poor growth. A second application may be made in approximately 30 days. Do not use on dichondra, carpetgrass, closely-mowed bentgrass, putting greens or St. Augustine lawns.

1. Mow lawn to normal height 1 to 2 days before application.
  2. Water lawn thoroughly at least 1 day before application to sustain moisture until the next watering (see step 4).
  3. Apply when weeds are young and actively growing, preferably in the morning when dew is on the grass. If grass is not moist at time of application, sprinkle lightly with water to hold the material and prevent dust drift onto non-target plants.
  4. Do not wash from seed leaves for 1 to 2 days after application. At this time a thorough watering should be made.
- Be patient, TRIMEC works slowly and gently and is friendly to your lawn.

**SPREADER SETTINGS**

Scott 55

The above spreader settings are approximate. Check your spreader on 100 sq. ft. and adjust to apply at the rate of 1 lb. per 500 sq. ft.

WEEDS
