NOTIFICATION

JUN 19 2006

Explanation: Use additional page(s) if necessary. (For section I and Section II.)

NOTIFICATION per Pesticide Registration Notice (PRN) 98-10:

We ask to add the following to the container label of our supplemental registrations:

- Three advertising claims.
- An advisory regarding the timing of application to Centipedegrass and St. Augustinegrass lawns.
- An advisory statement to show the amount of nitrogen provided when the product is applied as directed.

These are all presented as highlighted text in the Appendix (Page 7) of the enclosed labeling.

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or Confidential Statement of Formula of this product. I understand that it is a violation of 18 U.S.C Sec. 1001 to willfully make any false statement to the EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under Section 12 and 14 of FIFRA.

GORDON'S TRIMEC® WEEDER GRANULES

ACTIVE INGREDIENTS:

2,4-dichlorophenoxyacetic acid.....	1.37%
(+)-(R)-2-(2 methyl-4-chlorophenoxy)propionic acid.....	0.31%
Dicamba: 3,6-dichloro-o-anisic acid.....	0.13%
INERT INGREDIENTS:.....	98.19%
TOTAL	100.00%

THIS PRODUCT CONTAINS:

27.4 lbs. 2,4-dichlorophenoxyacetic acid equivalent per ton.

6.2 lbs. (+)-(R)-2-(2 methyl-4-chlorophenoxy)propionic acid equivalent per ton.

2.6 lbs. 3,6-dichloro-o-anisic acid equivalent per ton.

Isomer Specific by AOAC Methods

Contains the single isomer form of Mecoprop-p.

TRIMEC® is a registered trademark of PBI/Gordon Corporation.

KEEP OUT OF REACH OF CHILDREN

CAUTION

See back panel for Precautionary Statements.

READ THE ENTIRE LABEL FIRST. OBSERVE ALL PRECAUTIONS AND FOLLOW DIRECTIONS CAREFULLY.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Harmful if swallowed. Do not inhale dust. Do not allow contact with skin, eyes or clothing. When using this product, wear long-sleeved shirt, long pants, socks and shoes.

After using this product, remove clothing and launder separately before reuse, and promptly and thoroughly wash hand and exposed skin with soap and water.

First Aid

If in eyes:	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
If on skin or clothing:	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15 - 20 minutes. • Call a poison control center or doctor for treatment advice.
If swallowed:	<ul style="list-style-type: none"> • Call a poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give anything by mouth to an unconscious person.
<p>Have the product container or label with you when calling a poison control center or doctor or going for treatment. For additional information in case of emergency, call toll free 1-877-800-5556.</p>	

ENVIRONMENTAL HAZARDS:

Drift or runoff may adversely affect nontarget plants. Do not apply directly to water. Do not contaminate water when disposing of equipment washwater. Do not contaminate domestic or irrigation waters. Do not apply when weather conditions favor drift from target area.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not allow people (other than applicator) or pets on treatment area during application. Do not enter treatment area until dust has settled.

STORAGE: Store in original container and keep any bags containing unused product in a locked storage area inaccessible to children and domestic animals. Do not store near food or feedstuffs.

DISPOSAL:

- If empty:** Do not reuse this container. Place in trash or offer for recycling if available.
- If partially filled:** Call your local solid waste agency or toll free number (1-800-CLEANUP) for disposal instructions. Never place unused product down any indoor or outdoor drain.

USE PRECAUTIONS:

Do not allow the material to drift onto flowers, vegetables or ornamental shrubbery. Apply when the air is calm. Do not apply to newly seeded lawns. Do not apply in areas underlaid by roots of desirable trees and shrubs. Do not exceed specified dosages for any area; be particularly careful within dripline of tree and other ornamental species. During application, close spreader openings when turning. Do not contaminate domestic or irrigation waters.

INSTRUCTIONS:

Gordon's Trimec® Weeder Granules controls a wide range of lawn weeds including dandelion, chickweed, knotweed, plantain, henbit, spurge and many others commonly found in home lawns. Possible retreatment may be necessary if (a) lawn is heavily overrun by weeds, or, (b) if adverse low moisture conditions prevail and weeds are in a state of poor growth. A second application may be made in approximately 30 days.

For use on established turf of warm season grasses includes bermudagrass, centipedegrass, and zoysiagrass. Established turf of cool season grasses includes Kentucky bluegrass, perennial ryegrass, tall fescue, and turf-type tall fescues. Do not apply this product on carpetgrass, dichondra, St. Augustinegrass, or established turf containing desirable clovers.

The maximum application rate to turf is 1.2 pounds 2,4-D acid equivalent per acre per application per site. The maximum number of broadcast applications per treatment site is 2 per year.

1. Mow lawn to normal height 1 to 2 days before application.
2. Water lawn thoroughly at least 1 day before application to sustain moisture until the next watering (see step 4).
3. Apply when weeds are young and actively growing, preferably in the morning when dew is on the grass. If grass is not moist at time of application, sprinkle lightly with water to hold the material and prevent dust drift onto nontarget plants.
4. Do not wash from weed leaves for 1 to 2 days after application. At this time a thorough watering should be made.

Option 1: Coverage and Spreader Settings

Spreader Settings	
Scott.....	5½
Sears.....	6

The above spreader settings are approximate. Calibrate your spreader on 100 square feet and adjust to apply at the rate of 1 pound of product per 500 square feet.

Option 2: Alternate Coverage and Spreader Settings

COVERAGE: To determine how much fertilizer you need to apply, multiply the length of your lawn by its width. This equals your total square footage. Deduct any non-lawn areas (house, garden, etc.). One bag covers 5,000 sq.ft. [Length x Width = Total Sq.Ft. - Non-Lawn Areas = Total Sq.Ft. Coverage You Need]

SPREADER SETTINGS:

IMPORTANT: It is important to follow the directions as indicated on this quality lawn care product as over application may cause injury to your lawn. Spreader settings are approximate. Differences may occur due to condition of spreader, speed at which applied and roughness of area treated. Be sure to check spreader before beginning, adjusting if necessary. Consult Owner's Manual. *Never apply by hand.*

Spreading Hints: These granular settings are approximate. Calibrate your spreader on 100 sq.ft. and adjust to apply at the rate of 1 lb. of product per 500 sq.ft.. This bag covers ____ sq.ft. of lawn area.

To avoid gaps and streaks, first spread border of lawn and then fill in center with uniform, parallel passes. Walk at a steady pace so as to apply evenly throughout the lawn. [Graphics and/or diagrams may be presented on the container label].

Rotary Spreaders	Setting
Ames	see spreader instructions
EV-N-Spread	13

Spreader Settings

The spreader settings below are approximate. Calibrate your spreader on 100 sq. ft. and adjust to apply at the rate of 1 pound of product per 500 sq. ft. (2 lbs. of material per 1,000 sq. ft.). Rate of walk, moisture and spreader condition can vary the spreader setting necessary to apply the correct amount.

Apply in a single pass at a rate of 2 lbs. per 1,000 sq. ft. Start on the outside border and apply in a circular path working toward the center. Overlap the coverage slightly, and shut off spreader before making hard turns.
