STATEMENT OF PRACTICAL TREATMENT

For best results, apply this product to lawns with weeds. First, mow lawn to normal height. Then, water lawn thoroughly. Apply this product when weeds are young and actively growing. Preferably in the morning when dew is on the grass. If grass is not moist at time of application, sprinkle lightly with water to hold the material and prevent dust drift onto non target plants.

For more information, see the back panel of this product.

CORPORATION

STOP! READ THE ENTIRE LABEL FIRST.
OBSERVE ALL PRECAUTIONS AND FOLLOW DIRECTIONS CAREFULLY.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Harmful if swallowed. Do not inhale dust. Do not allow contact with skin, eyes or clothing. Wash thoroughly after handling.

Environmental Hazards

Do not apply directly to water. Do not apply when weather conditions favor drift from target area. Do not contaminate domestic or irrigation waters.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

STORAGE & DISPOSAL

Do not store near fertilizers, seeds or other pesticides. Do not reuse empty container. Wrap and put in trash collection.

USE PRECAUTIONS

Do not use this product where desirable clovers are present or allow the material to wind drift onto flowers, vegetables or ornamental shrubbery. Do not apply in areas underlaid by roots of desirable trees or shrubs. Apply when the air is calm. Do not apply to newly seeded lawns. During application, close spreader openings when turning to prevent over application.

INSTRUCTIONS

Gordon's Weed & Feed 24B contains TRIMEC[®], herbicide, a patented combination of three proven weed killers—2,4-D, Mecoprop and Dicamba. Together, they control a wide range of broadleaf lawn weeds including dandelion, chickweed, knotweed, plantains, henbit, spurge and many others commonly found in home lawns. In addition, a 20-10-5 fertilizer provides a generous supply of plant food needed for a normal season's growth. Possible retreatment may be necessary if (a) lawn is heavily overrun by weeds, or, (b) if adverse low moisture conditions prevail and weeds are in a state of poor growth. A second application may be made in approximately 30 days. Do not use on dichondra, carpetgrass, closely-mowed bentgrass putting greens or St. Augustine lawns.

1. Mow lawn to normal height 1 to 2 days before application.
2. Water lawn thoroughly at least 1 day before application to sustain moisture until the next watering (see Step 4).
3. Apply when weeds are young and actively growing, preferably in the morning when dew is on the grass. If grass is not moist at time of application, sprinkle lightly with water to hold the material and prevent dust drift onto non target plants.
4. Do not wash from weed leaves for 1 to 2 days after application. At this time a thorough watering should be made.

Be patient, TRIMEC works slowly and gently and is friendly to your lawn.

SPREADER SETTINGS
