TRIMEC® WEED & FEED FOR SOUTHERN LAWNS

20-10-5

(FIFTEEN, SIXTEEN, OR EIGHTEEN) POUNDS COVERS UP TO 5,000 SQUARE FEET

Controls Dandelion, Chickweed, Knotweed, Plantain, Henbit, Spurge and many other broadleaf weeds in St. Augustinegrass, Centipedegrass, Bahiagrass, Bermudagrass, Zoysiagrass, Bluegrass, Ryegrass, Fescue and Bentgrass lawns; some of which are listed on the back panel.

ACTIVE INGREDIENTS:

*Dimethylamine Salt of 2-(2-methyl-4-chlorophenoxy) propionic acid	0.641%
**Dimethylamine Salt of 2,4-Dichlorophenoxyacetic acid	0.184%
***Dimethylamine Salt of Dicamba (3,6-dichloro-o-anisic acid)	0.078%
INERT INGREDIENTS	99.097%
	TOTAL 100.000%

THIS PRODUCT CONTAINS:

- *10.609 lbs. or 0.530% 2-(2-methyl-4-chlorophenoxy) propionic acid equivalent per ton.
- **3.062 lbs. or 0.153% 2,4-Dichlorophenoxyacetic acid equivalent per ton.
- ***1.304 lbs. or 0.065% 3,6-dichloro-o-anisic acid equivalent per ton.

A WELL-MAINTAINED LAWN BENEFITS OUR ENVIRONMENT.

- Apply when weeds are young and actively growing.
- Provides vital nutrients plus time-released nitrogen which encourages grass to fill in bare spots weeds leave behind.
- Contains sulfur which helps maintain dark green color and encourages plant and root growth.

GRASS CYCLING AND LAWN BENEFITS

Grass clippings and yard waste are approximately 20% of the volume in our nation's landfills. To do your part to reduce this amount, leave grass clippings on your lawn. Increased mowing height and frequency will produce smaller grass clippings that will decompose more readily so nutrients will go back into your lawn.

Besides increasing property values, did you know a well-maintained lawn provides the following benefits to your home and environment:

- A 50 foot x 50 foot lawn produces enough oxygen for a family of four.
- Controls erosion
- Reduces glare
- Traps dust, smoke particles and other pollutants
- Purifies water
- Reduces noise
- Improves soil condition
- Modifies temperature

STOP! READ THE ENTIRE LABEL FIRST. OBSERVE ALL PRECAUTIONS AND FOLLOW DIRECTIONS CAREFULLY.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Harmful if swallowed. Do not inhale dust. Do not allow contact with skin, eyes or clothing. Wear long pants, long-sleeved shirt and shoes when applying this product. Wash thoroughly after handling.

STATEMENT OF PRACTICAL TREATMENT

In case of contact, wash skin with plenty of soap and water; For eyes, flush with water for 15 minutes and get medical attention.

ENVIRONMENTAL HAZARDS: This product is toxic to aquatic invertebrates. Drift or runoff may adversely affect aquatic invertebrates and nontarget plants. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by disposing of equipment washwaters. Do not apply when weather conditions favor drift from target area.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not reenter or permit others to reenter treated areas until sprays have dried or dusts have settled.

STORAGE: Store in original container and keep any bags containing unused product in a locked storage area inaccessible to children and domestic animals. Do not store near food or foodstuffs. To prevent cross-contamination, do not store near other fertilizers, or near herbicides insecticides, fungicides, or seeds.

PRODUCT DISPOSAL: Securely wrap bag in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Do not reuse bag. Discard bag in trash.

BEST AVAILABLE COPY

- USE PRECAUTIONS -

Do not use this product where desirable clovers are present or allow the material to "wind drift" onto flowers, vegetables or ornamental shrubbery. Do not apply in areas underlaid by roots of desirable trees or shrubs. Apply when the air is calm. Do not apply to newly seeded lawns. During application, close spreader openings when turning. Do not contaminate domestic or irrigation waters.

- INSTRUCTIONS -

GORDON'S WEED & FEED FOR SOUTHERN LAWNS is a TRIMEC^(R) complex, a combination of three proven weed killers - 2,4-D, Mecoprop and Dicamba. Together they control a wide range of lawn weeds, including dandelion, chickweed, knotweed, plantains, henbit, spurge and many others commonly found in home lawns. In addition, a 20-10-5 fertilizer provides a generous supply of plant food needed for a normal season's growth. Possible retreatment may be necessary if (a) lawn is heavily overrun by weeds, or, (b) if adverse low moisture conditions prevail and weeds are in a state of poor growth. A second application may be made in approximately 30 days. Do not use on dichondra. Do not overapply. Under conditions of adequate moisture, high temperature and high humidity, over-application may cause minor transitory discoloration on St. Augustinegrass.

1. Mow lawn to normal height 1 to 2 days before application.
2. Water lawn thoroughly at least 1 day before application to sustain moisture until the next watering (see step 4).
3. Apply when weeds are young and actively growing, preferably in the morning when dew is on the grass. If grass is not moist at time of application, sprinkle lightly with water to hold the material and prevent dust drift onto non-target plants.
4. Do not wash from weed leaves for 1 to 2 days after application. At this time, a thorough watering should be made.

SPREADER SETTINGS

- Scott..... 6
- Lawn Beauty 5
- Jackson: 7 1/2
- Sears 4

The above spreader settings are approximate. (15 pound bag: Check your spreader on 330 square feet and adjust to apply at the rate of 1 pound per 330 square feet)(16 pound bag: Check your spreader on 310 square feet and adjust to apply at the rate of 1 pound per 310 square feet)(18 pound bag: Check your spreader on 275 square feet and adjust to apply at the rate of 1 pound per 275 square feet)
