GORDON'S MECOME[®] 4

FOR THE CONTROL OF SURFACE CREEPING
OR PROSTRATE BROADLEAF WEEDS IN
GOLF GREENS, FAIRWAYS AND OTHER FINE TURF GRASSES.

ONE GALLON COVERS FROM 2 TO 3 1/4 ACRES

- KEEP FROM FREEZING -

ACTIVE INGREDIENT:

*Potassium Salt of 2-(2-methyl-4-chlorophenoxy)propionic acid.....	48.32%
INERT INGREDIENTS.....	<u>51.68%</u>
TOTAL	100.00%

THIS PRODUCT CONTAINS:

4 lbs. 2-(2-methyl-4-chlorophenoxy)propionic acid equivalent per gallon or 38.28%
MECOME[®] is a registered trademark of PBI/Gordon Corporation.

KEEP OUT OF REACH OF CHILDREN

CAUTION

STATEMENT OF PRACTICAL TREATMENT

In case of contact with eyes, flush with water for 15 minutes. Get medical attention.

In case of contact with skin, wash with plenty of soap and water. If irritation develops, get medical attention.

See back panel for additional Precautionary Statements

STOP! READ THE ENTIRE LABEL FIRST. OBSERVE ALL PRECAUTIONS AND FOLLOW DIRECTIONS CAREFULLY.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Harmful if swallowed. Avoid contact with eyes, skin or clothing. Wear long pants, long-sleeved shirt, shoes and gloves when mixing, loading or applying this product. Wear face shield or goggles when mixing, loading or applying this product. Avoid breathing spray mist. Avoid contamination of food or feedstuffs.

Environmental Hazards: Drift or run-off may adversely affect nontarget plants. For terrestrial uses, do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters. When cleaning equipment, do not pour the washwater on the ground; spray or drain over a large area away from wells and other water sources. Do not apply when weather conditions favor drift from target area. Do not contaminate domestic or irrigation waters.

Most cases of groundwater contamination involving phenoxy herbicides such as MCPP have been associated with mixing/loading and disposal sites. Caution should be exercised when handling MCPP pesticides at such sites to prevent contamination of groundwater supplies. Use of closed systems for mixing and transferring this pesticide will reduce the probability of spills. Placement of the mixing/loading equipment on an impervious pad to contain spills will help prevent groundwater contamination.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not reenter or permit workers to reenter treated areas until sprays have dried or dusts have settled.

STORAGE & DISPOSAL

STORAGE: Store in original container in a locked storage area inaccessible to children or pets. Keep from freezing.

PESTICIDE DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: For Plastic Containers - Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

USE PRECAUTIONS

DRIFT: GORDON'S MECOME[®] 4 is active at low concentrations. Do not spray in windy weather as the spray drift may cause damage to neighboring crops. Avoid spray drift to susceptible plants as this product may injure beans, tomatoes, peas, cauliflower, cabbages, grapes, sugar beets, tobacco, cotton, sunflowers, boxelder trees, flowers, ornamentals, and fruit crops. **COARSE SPRAYS ARE LESS LIKELY TO WIND-DRIFT.** Do not apply this product through any type of irrigation system.

EQUIPMENT: Wash equipment thoroughly with water and a wetting agent or liquid detergent immediately after use. Spray out, fill with clean water and leave overnight. Spray out again before storing or using for another product. Traces of the product remaining in the sprayer can cause harm to susceptible crops sprayed later.

GENERAL INFORMATION & INSTRUCTIONS:

GORDON'S MECOME[®] 4 may be used on ornamental turf grasses; Washington Toronto, Seaside Bent, Kentucky and Merion Bluegrass. GORDON'S MECOME[®] 4 is a selective herbicide for the control of surface creeping or prostrate broadleaf weeds; some of which are listed below. Because GORDON'S MECOME[®] 4 is relatively slow in action, it will not injure bentgrasses and other fine turf grasses when used as directed.

WHEN TO APPLY: Make applications on a warm, calm day when weeds are growing vigorously. To obtain the best results, GORDON'S MECOME[®] 4 must be applied when weeds are most susceptible and conditions are such that no damage to grasses will occur. During periods of drought, weeds become more resistant to herbicides. Under these same conditions, fine grasses are more susceptible to GORDON'S MECOME[®] 4, particularly when temperatures exceed 90°F. GORDON'S MECOME[®] 4 is absorbed by the foliage of broadleaf weeds and is translocated throughout the whole plant.

DO NOT: Do not cut or mow grass 2 to 3 days before or after treatment so that maximum uptake and translocation can occur. Do not spray if rain is likely, otherwise the product may be washed off before absorption has taken place. For this same reason, do not water grass for at least 24 hours after application. GORDON'S MECOME[®] 4 is not recommended for St. Augustingrass and centipedegrass. Do not use GORDON'S MECOME[®] 4 on newly sown lawns or turf for six months after planting. Do not use the first cuttings as a mulch for flowers and vegetables.

WEEDS CONTROLLED:

Susceptible Weeds:

- | | |
|---------------------|--------------|
| WHITE CLOVER | RAGWEED |
| RED CLOVER | LAMBSQUARTER |
| COMMON CHICKWEED | PIGWEEED |
| MOUSE-EAR CHICKWEED | GROUND IVY |
| PLANTAIN | |

Moderately Susceptible Weeds:

Repeat applications at half recommended dosage may give better control. Do not make a second application until 30 days after the first treatment.

- | | |
|--------------|-------------|
| KNOTWEED | BLACK MEDIC |
| MORNINGGLORY | YARROW |
| PURSLANE | SPEEDWELL |

On established grasses such as fairways, other turf areas and home lawns, use 1-1/4 ounces to 1-1/2 fluid ounces per 1,000 square feet (3-1/3 to 4 pints per acre) in 3 quarts to 1 gallon of water per 1,000 square feet (32 to 40 gallons per acre)

On established greens, apply 1 fluid ounce per 1,000 square feet (2 pints to 2.7 pints per acre) in 3 quarts to 1 gallon of water per 1,000 square feet (32 to 40 gallons per acre)

NOTE: Use application equipment that is capable of applying uniform droplets over the entire area to be covered

LIMITED WARRANTY AND DISCLAIMER.

The manufacturer warrants only that the chemical composition of this product conforms to the ingredient statement given on the label, and that the product is reasonably suited for the labeled use when applied according to the Directions for Use.

THE MANUFACTURER NEITHER MAKES NOR INTENDS ANY OTHER EXPRESS OR IMPLIED WARRANTIES, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WHICH ARE EXPRESSLY DISCLAIMED. This limited warranty does not extend to the use of the product inconsistent with label instructions, warnings or cautions, or to use of the product under abnormal conditions such as drought, excessive rainfall, tornadoes, hurricanes, etc. These factors are beyond the control of the manufacturer or the seller. Any damages arising from a breach of the manufacturer's warranty shall be limited to direct damages, and shall not include indirect or consequential damages such as loss of profits or values, except as otherwise provided by law.

The terms of this Limited Warranty and Disclaimer cannot be varied by any written or verbal statements or agreements. No employee or agent of the seller is authorized to vary or exceed the terms of this Limited Warranty and Disclaimer in any manner.
