Prohibitions: Do not use containers made wholly or in part by a single type of synthetic covering of any polymer (thermoformed resin). These prohibitions are specific.

Positive List Disposal: First, do not remove a part that accounts for 10% or more of the total material and must be disposed of according to applicable federal, state, or local provisions.

Tagging and Disposal: Components simply may be left alone and tagging will be done by the manufacturer. The manufacturer must remove only applicable equipment. Then, disposal of hazardous secondary landfill is by the manufacturer if allowed by state and local authorities.

This product is recommended for control of annual perennial weeds such as **ARTEMISIA CANADA**, **IN STE. CLOUTIER**, **ALSCANDILLON (CATSEAR)**, **FESCUE LEAF SPURGE**, **ORCHARDGRASS**, **QUACKGRASS**, **RUSSIAN KNAWEED**, **IMMORTY WILD ARCTIC**, **WINDASTR**, **WILD CARROT**, and **YELLOW ROCKET** in established windy areas. **GENUINETS**, **IRIS**, and **TRIFOLIUM** do not get control from this product.

late fall from November 15 to February 15. Cold seed germination should not be removed before application. Do not make surface application to crops which have been cultivated during the fall or summer prior to application.

which, along with the other materials, is used to make the final product, the composite material.

PAULINE MONTGOMERY (M) *Worshiping God's Word* (1994) 160 pp. \$14.95. ISBN 0-8091-3411-4. This book is a collection of devotional meditations on the Word of God, written by Pauline Montgomery, a member of the United Methodist Church. The book is divided into two parts: "The Word of God" and "The Word of Life". The first part contains 12 chapters, each focusing on a different aspect of the Word of God. The second part contains 12 chapters, each focusing on a different aspect of the Word of Life. The book is written in a simple, accessible style, and is suitable for use in personal devotion or in a church setting.

WITNESS **CHEMIST** is a person who is employed or engaged to perform chemical analysis for the purpose of determining the composition of a substance, or to determine the presence or absence of a particular substance in a sample. The witness chemist is usually a person who is employed by a government agency, or by a private laboratory, and who is qualified to perform chemical analysis.

[illegible]

The main point of the article is that the theory of contract formation is silent on the important question of liability on the part of the seller who has sold to a buyer in a market where the price of the goods is determined by a market clearing mechanism. The article is mainly saying that conditions of the market make it impossible for the seller to make a claim for damages because he has sold the goods in a market where the price is determined by a market clearing mechanism. The article is mainly saying that conditions of the market make it impossible for the seller to make a claim for damages because he has sold the goods in a market where the price is determined by a market clearing mechanism.
