TRIMEC(R) M 905
LAWN WEED KILLER ✓

ONE QUART COVERS 9.600 SQUARE FEET

CONTROLS: DANDELION, KNOTWEED, HENBIT,
PLANTAINS, SPURGE, POISON IVY and many
other broadleaf lawn weeds: some of which
are shown on the side panel.

ACTIVE INGREDIENTS:

* Dimethylamine Salt of 2-methyl-4-chlorophenoxyacetic acid....	9.432%
** Dimethylamine Salt of 2-(2-methyl-4-chlorophenoxy)propionic acid.....	4.465%
*** Dimethylamine Salt of Dicamba (3,6-dichloro-o-anisic acid)...	1.047%
INERT INGREDIENTS.....	85.056%
	TOTAL 100.000% ✓

THIS PRODUCT CONTAINS:

- * 0.668 lbs 2-methyl-4-chlorophenoxyacetic acid per gallon or 7.70%
- ** 0.320 lbs 2-(2-methyl-4-chlorophenoxy)propionic acid per gallon or 3.69%
- *** 0.075 lbs 3,6-dichloro-o-anisic acid per gallon or 0.87%

KEEP OUT OF REACH OF CHILDREN

WARNING

STATEMENT OF PRACTICAL TREATMENT

In case of contact, wash skin with plenty of soap and water; for eyes, flush with water for 15 minutes and get medical attention.

See back panel for additional precautionary statements.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

WARNING: May be fatal if absorbed through the skin. Causes eye irritation. May be harmful if swallowed or inhaled. Do not get in eyes, on skin, or on clothing. Wear protective clothing, rubber gloves, and goggles, face shield, or safety glasses. Wash thoroughly with soap and water after handling and before eating or smoking. Remove contaminated clothing and wash before reuse.

Statement of Practical Treatment

IF IN EYES: In case of eye contact, immediately flush eyes with plenty of water for 15 minutes. Call a physician at once.

IF SWALLOWED: Drink one or two glasses of water. Induce vomiting by touching back of throat with finger. Call a physician at once. Do not induce vomiting or give anything by mouth to an unconscious person.

IF INHALED: Remove victim to fresh air and apply respiration if indicated.

IF ON SKIN: Wash promptly with soap and water. Rinse thoroughly.

ENVIRONMENTAL HAZARDS

Do not apply directly to water. Do not contaminate domestic or irrigation waters. Do not apply when weather conditions favor drift from target area.

DIRECTIONS FOR USE

It is a violation of federal law to use this product inconsistent with its labeling.

STORAGE & DISPOSAL

STORAGE: Store in original container in a locked storage area. Keep from freezing. To avoid cross-contamination, do not store near other pesticides, fertilizers, or seeds.

PRODUCT DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinse is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Triple rinse (or equivalent) Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

USE PRECAUTIONS

Avoid drift of spray mist to vegetables, flowers, ornamental plants, shrubs, trees and other desirable plants. Do not pour on carpetgrass, dichondra, nor on lawns or turf where desirable clovers are present. Do not spray roots of ornamentals and trees. Do not exceed specified dosages for any area, be particularly careful within dripline of tree and other ornamental species. Use only lawn sprayers. Coarse sprays are less likely to drift away from target area. This product may be injurious to St. Augustine and Centipede grasses. "Spot spray" only on such sensitive grasses.

WHERE TO USE: TRIMEC M 905 Lawn Weed Killer may be used on BLUEGRASS, BERMUDA, BAHIA, FESCUE, RYE OR ZOYSIA lawns, VACANT LOTS, PLAYGROUNDS and other similar areas where weeds are present. It is especially effective on all types of hard-to-kill weeds such as HENBIT, LESPEDEZA, MORNINGGLORY, POISON IVY and POISON OAK, SPOTTED SPURGE and OXALIS. In addition to these, TRIMEC M controls most other broadleaved lawn weeds including such sensitive species as BLACK MEDIC, CHICKWEED, DANDELION and PLANTAIN. A partial list is given on the side panel.

WHEN TO USE:

1. Spray at any time during the growing season when weeds are actively growing.
2. On new lawns, wait until the grass has reached a height of 2 inches before making an overall spray treatment, spot-spraying however, may be made at any time with a small pressure-sprayer, spraying only the weeds at ground level. Wait 3 weeks before putting new grass seed or stolons down in the bare spots.
3. Poor weed control may result if spray is applied during drought or just before rain.
4. For best results, mow before treating.
5. Do not water lawn within 24 hours after treatment.

HOW MUCH TO USE: Example--Mix 1 oz. (2 tbs.) in 1 gallon of water and apply on 300 sqft. in the spring for sensitive weeds. For larger or more dense weed stands, apply the same dosage over 200 sqft. Follow the rate charts below.

Hose-End Sprayer: Use a hose-end sprayer designed for lawns. Put recommended amount of product in bottle and add water to proper level and spray on area indicated. For example -- to spray 3,000 sqft. measure 10 oz (20 tbs.) in jar and add water to the 10 gallon mark and mix. Turn on hose and spray as evenly as possible over 3,000 sqft.

Amount TRIMEC M 905 Lawn Weed Killer to use: (Tbs.)	Fl.Oz.	Fill Bottle to Gallons	Area to Treat (Sq.Ft.)
2	1	1	300
4	2	2	600
10	5	5	1,500
20	10	10	3,000
32	16	16	4,800

Pressure-Sprayers: Measure recommended amount of product into tank and dilute with water according to the following chart. Use a spray pattern which gives small spray droplets without any fine mist and cover the area indicated.

4	2	1/2	600
8	4	1	1,200
16	8	2	2,400
24	12	3	3,600

NOTE: Whether using a hose-end sprayer or pressure-sprayer, avoid sprays which are too fine because they can drift and damage ornamental or garden plants.

SPOT SPRAYING: To spray small areas or individual weeds, do not use hose-end sprayers. Mix 2 oz. (4 tbs.) in 1/2 gallon of water and spray as required being certain to wet each weed.
