DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Do not reuse empty container. Wrap container and put in trash collection.

USE PRECAUTIONS:

Apply when air is calm to avoid the possibility of drift onto desirable plants or grass. Keep away from the roots of desirable plants or trees. Use only in areas where complete control of all vegetation is desired. This product should not be used on cultivated areas, on ground that is to be cultivated, in greenhouses, or near the dripline of trees or shrubs. Do not use on slopes or in areas where runoff is likely to occur. Apply only to level surfaces. Avoid using where adjacent desirable trees, shrubs or plants may be injured from leaching of the chemical through the soil. Keep children and animals off treated areas until these areas are dry.

GENERAL INFORMATION

For total weed control on certain areas around the home, the business, or workplace where no plant growth is desired, use as specified in label directions.

Controls bindweed, common mullein, and other hard-to-kill weeds.

Prevents plant growth for up to one year.

Vegetation Killer 150 is a nonselective product intended for use without further dilution. For best results, apply to bare ground or when weed growth is just starting. Weeds taller than 4-6 inches should be hoed before treatment or it may be necessary to make a second application. A second application may be necessary to control deep-rooted perennial weeds. Use for bare ground vegetation control in driveways, brick walks, paths, patios, parking areas, play areas, along fences and curbs, around buildings, and under graveled pathways where plant growth has come through these surfaces.

For control of annual and susceptible perennial weeds such as downy brome grass, oatgrass, goosegrass, quackgrass, puncturevine, goldenrod, and plaintain. To cover 100 sq.ft., apply 1 2/3 - 2 1/2 pts. undiluted product by use of a sprinkling can or other watering or spraying device. For control of hard-to-kill perennial broadleaf and grass weeds such as bindweed and johnsongrass as well as the biennials common mullein and wild carrot, use 6 2/3 - 9 1/5 pts. product per 100 sq. ft.

When using a sprinkling can, triple rinse and pour rinsate on area treated once application is completed. Mix only the quantity needed and use immediately. To minimize lateral movement, sprinkle lightly with a watering can or similar sprinkler device immediately after application.
