Subject: Notification(s) for Label Revisions under PRN 2007-4

Dear Dr. Kunstman:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notices (PRN) 2007-4 dated October 15, 2009 for:

EPA Registration 2217-865
EPA Registration 2217-842

EH 1404 Herbicide
EH-1385 Herbicide

The Registration Division (RD) has conducted a review of the request(s) for applicability under PRN 2007-4 and finds that the label changes requested fall within the scope of PRN 2007-4. The label has been date-stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identify the batch of the pesticide distributed and sold be placed on nonrefillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please contact me directly at 703-305-6249 or Nicole Williams of my staff at 703-308-5551.

Sincerely,

A handwritten signature in black ink, appearing to read "Linda Arrington".

FACTS:

- EH-1385 Herbicide is a general purpose herbicide designed as a ready-to-use spray to control a broad spectrum of emerged annual and perennial weed species. EH-1385 Herbicide will control unwanted species of grass, sedge, broadleaf weeds, and certain woody species around trees, shrubs, fences.
- This product kills plants by inhibiting the production of a substance found only in plants. It enters plants through the sprayed foliage and moves down to the roots.
- This product is nonselective and will kill or injure all vegetation contacted by the spray.
- This product has no soil residual activity and thus will not affect nearby untreated plants.
- Plants that have not emerged at the time of application will not be controlled.
- Best results will be obtained when the weed species are actively growing.

WHERE TO USE:

- along and on sidewalks, gravel/brick walkways, paths, curbs, paved areas (private roads and streets), driveways, parking areas, recreational areas
- along ornamental lawns and turfgrass
- around or near ornamental/shade trees, shrubs, groundcovers, flower beds, mulched landscape beds.
- along fences, hedgerows, under fencelines
- around rocks, signposts, light posts, or on fringe areas
- around or along buildings/structures, foundations, patios, houses, mobile homes, vacant lots, urban areas, domestic outdoor premises, and other areas associated with household or home life
- In large areas for lawn replacement or garden plot preparation
- urban areas where total vegetation control is desired
- farmsteads where total vegetation control is desired: around farmstead building foundations, along fences, hedgerows, fencerows, under fencelines, around shelter belts and other areas where nonselective weed control is desired.

WEEDS CONTROLLED:

EH-1385 Herbicide will provide full or partial control (suppression) of these lawn and turfgrass species:

Bahiagrass bentgrass, colonial, creeping and redtop bermudagrass, common and hybrid bluegrass, annual, rough, and Kentucky bromegrass, downy and smooth buffalograss ¹	canarygrass, reed carpetgrass ¹ centipedegrass fescues, chewings, hard, red, tall, sheep foxtails, green, yellow, creeping, meadow, giant Johnsongrass	kikuyugrass orchardgrass Paspalum spp. ryegrass, annual, Italian, perennial, and hardy St. Augustinegrass zoysiagrass or Japanese lawngrass

HOW AND WHEN TO APPLY:

- EH 1385 Herbicide is formulated for "spot treatment" of individual weeds and grasses. This product is ready-to-use (RTU) and is applied directly from the container fitted with a trigger sprayer. Adjust the sprayer tip to deliver coarse spray droplets to the individual weeds. Direct the spray to the target weeds—the ones you want to kill—to provide uniform and thorough coverage. Apply on a spray-to-wet basis.
 - *[Supplemental registrants may include or omit the edger instructions presented in this paragraph:]* EH 1385 Herbicide is an easy edger for around desirable plants and vegetation. To use, remove cap and fasten the built-in sprinkler applicator. For edging, turn container upside down. Walk slowly holding nozzle 2 to 6 inches above [weeds and grasses][area to be treated]. Thoroughly wet the foliage of the unwanted vegetation. A one-gallon container covers a 2 inch band 1200 feet long. For larger area coverage, adjust the width of the spray pattern by varying the height of the container.
 - Apply when the weeds are growing actively and air temperatures are above 60°F.
 - Spray [Use] when air is calm to prevent drift to desirable plants.
 - When treating around desirable plants, shield plants from drift with a sheet of cardboard or plastic. If desirable plant is accidentally sprayed, rinse off immediately with water.
 - Any product not absorbed by plants breaks down into natural materials without moving in or on the soil to untreated plants.
 - One (1) application will kill most of the weeds listed.
 - Weeds usually begin to wilt within hours with complete kill in 1 to 2 weeks
 - Rain or watering 2 hours after application will not wash away effectiveness
 - Weed control may be reduced under adverse environmental conditions, e.g., drought, cool temperatures or misapplication. Difficult to control weeds, dense infestations/populations, or heavy/dense growth (canopy) of the target species may require additional applications. Two (2) or more applications at four (4) weeks intervals may be required for season long control.
 - Avoid cutting, mowing or disturbing the treated vegetation for seven (7) days following application.
 - Ornamental trees, shrubs and flowers may be replanted one (1) day after application.
- ~~This 32 fl. oz. (quart) retail container size treats approximately 250 weeds or 137 sq. ft.~~
~~This 64 fl. oz. (1/2 gallon) retail container size treats approximately 500 weeds or 275 sq. ft.~~
- This 128 fl. oz. (gallon) retail container size treats approximately 1,000 weeds or 750 sq. ft.
 - Do not spray plants or grasses you like – they may die too. Not recommended for spot weed control in lawns since this product kills lawn grasses.
