> OFFICE OF PREVENTION, PESTICIDEMD TOXIC SUBSTANCES

James L. Kunstman, Ph.D. Director of Regulatory Services PBI/Gordon Corporation Post Office Box 014090 Kansas City, Missouri 64101

RE: To eliminate all references to spot treatment from the label (pages 4, 6 and 7) and request to add several advertising claims which will be used by the subregistrant (page 2, 6, 7, 9 and 10)
 EPA Registration Number: 2217-896
 Date of Submission: July 25, 2008

Dear Dr. Kunstman:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 dated July 25, 2008, for the product EH-1437 Herbicide. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the actions requested fall within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

If you have any questions, please me directly at 703-305-6249 or Joyce Edwards, of my staff at 703-308-5479.

Sincerely,

Linda Arrington Notifications & Minor Formulations Team Leader Registration Division (7505P) Office of Pesticide Programs

EH-1437 HERBICIDE

EPA Reg. No. 2217-896

ACTIVE INGREDIENT:

2,4-D, dimethylamine salt	6.42%
Quinclorac	2.13%
Dicamba, dimethylamine salt	0.60%
INERT INGREDIENTS:	90.85%
TOTAL	

THIS PRODUCT CONTAINS:

0.456 lb. 2,4-dichlorophenoxyacetic acid equivalent per gallon or 5.33% 0.182 lb. 3,7-dichloro-8-quinolinecarboxylic acid per gallon or 2.13% 0.043 lb. 3,6-dichloro-o-anisic acid equivalent per gallon or 0.50% Isomer Specific By AOAC Methods.

Note: If the design, format, or small size of the container labels makes it impractical to present the entire ingredient statement on the front panel, then add a referral statement and present this substatement on the back panel: **"See back panel for substatement of ingredient statement"**.

KEEP OUT OF REACH OF CHILDREN

CAUTION

STOP! READ THE ENTIRE LABEL FIRST. OBSERVE ALL PRECAUTIONS AND FOLLOW DIRECTIONS CAREFULLY.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Harmful if swallowed. When using this product, wear long-sleeved shirt, long pants, socks, shoes, and rubber gloves.

Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. After using this product, rinse gloves before removing, remove clothing and launder separately before reuse, and promptly and thoroughly wash hands and exposed skin with soap and water. Remove saturated clothing as soon as possible and shower.

User Safety Recommendations

- Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. If pesticide gets on skin, wash immediately with soap and water.
- Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

1 of 10 002217-00896.20080725.proposed.doc

First Aid			
If in eyes:	 Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. 		
If swallowed:	 Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything by mouth to an unconscious person. 		
	t container or label with you when calling a poison control center or doctor or going for nay also contact 1-877-800-5556 for emergency medical treatment advice.		

Environmental Hazards

This pesticide is toxic to fish and aquatic invertebrates. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash waters or rinsate.

This chemical has properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination. Application around a cistern or well may result in contamination of drinking water or groundwater.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

General Precautions and Restrictions:

- Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application.
- [Additional Icon] Do not allow people or pets to enter the treated area until sprays have dried.

SHAKE WELL BEFORE USING

PRODUCT FACTS:

What It Does: Kills major broadleaf and troublesome grass weeds including dandelion, chickweed and clover as well as crabgrass and foxtail. (See inside for complete list)

Where to Use: Lawns: Kills the weeds not the lawn when used as directed. (icon weeds)

When to Use: Apply when daytime temperatures are below 90°F.

Questions & Comments: (icon phone) (icon computer) Call 1-800-xxx-xxxx or Visit our Website at <u>www.companyname.com</u>

HOW IT WORKS:

EH-1437 Herbicide contains three proven weed killers that target lawn weeds and crabgrass. This herbicide enters the lawn weeds through their leaves and moves throughout the plant to provide control. And lawns listed on this label will not be harmed when used as directed.

WHERE TO USE:

EH-1437 Herbicide can be applied to residential lawns with the following turfgrass species:

Cool Season Turfgrass	Warm Season Turfgrass
Kentucky bluegrass	Bermudagrass ¹ , common and hybrid
Ryegrass, perennial and annual	Zoysiagrass
Tall fescue	Buffalograss
Mixtures of cool season grasses containing fine fescues	
(red, hard and chewings)	

wing not apply to bermudagrass when daytime temperatures exceed 85° F.

DO NOT apply EH-1437 Herbicide to the following:	
Bahiagrass	
Bentgrass, colonial and creeping	
Carpetgrass	
Centipedegrass	
Dichondra	
Gardens including vegetables, fruit trees, vines and berries	
Ornamental plants (flowers, trees, groundcovers, landscape beds and shrubs)	
Seashore paspalum	
St. Augustinegrass	
Turfgrass species that are not listed on this label.	

GRASS AND BROADLEAF WEEDS CONTROLLED:

weeds

WHEN TO USE:

Cockle

Apply this product when weeds are small and actively growing.

Musk thistle

Weed species	Season	Timing	Maximum number of applications ¹	Application interval, days	Comments
Crabgrass (large and smooth):	Spring	From crabgrass emergence until the crabgrass is 3 to 4 inches in height	2	14	Re-treat at the same rate at 14 days later for dense populations or for continued crabgrass emergence.
Foxtail (green, giant and yellow):	Spring and early summer	During the early growth stages or when foxtail is 1 to 4 inches in height.	2	14	Re-treat at the same rate at 14 days later for dense populations.
Broadleaf signalgrass	Spring and early summer	During the early growth stages or during the 3 to 7 leaf stage.	2	14	Re-treat at the same rate at 14 days later if needed.
Dandelion, plantain, buttercup, speedwell, knotweed and other listed broadleaf weeds	Spring	When broadleaf weeds are small and actively growing.	2		Apply when broadleaf weeds are young and actively growing with adequate soil moisture.
Henbit, chickweed, white clover, ground ivy, lawn burweed and other listed broadleaf weeds	Fall	When broadleaf weeds are young and actively growing	2		Apply when broadleaf weeds are young and actively growing with adequate soil moisture

¹The maximum application rate is 6.4 fl.oz. of product per 1,000 sq.ft. per application (1.0 lb 2,4-D acid equivalent per acre per application).

The maximum number of broadcast applications is limited to 2 per year.

Do not apply more than 2 applications per year.

The maximum seasonal rate is 12.8 fl.oz. of product per 1,000 sq.ft. (2.0 lbs 2,4-D acid equivalent per acre) excluding spot treatments.

HOW MUCH TO USE:

I. ENTIRE LAWN TREATMENTS WITH DIAL TYPE HOSE-END SPRAYERS

Three Easy Steps To Mix And Apply:

1. FILL

- Determine (Measure) the total lawn area to be sprayed. For rectangular areas, multiply the length by the width to obtain total square feet.
- The application rate for this product is 6.4 fl.oz. of product per 1,000 sq.ft. of lawn. Add an adequate amount of herbicide to the spray bottle to treat the total lawn area, or add 6.4 fl.oz. of product for every 1,000 sq.ft. of lawn area. Over-application or rates above those recommended on this label can cause turf injury.
- Do not add water to the sprayer jar.

2. SET THE DIAL

For hose-end sprayers: Set the dial to the rate per gallon and keep the dial set to this setting while spraying.

The dial setting or rate per gallon for this product is 2.5 oz. of product per gallon of water.

Types of hose-end sprayers	Dial setting
Ortho® Dial'N Spray® Hose-End Sprayer	2.5 oz.
Hudson® Hose End Liquid Concentrate Sprayer	2.5 fl.oz.
Gilmour® Dial-A-Mix® Lawn and Garden Sprayer	15 Teaspoons or 5 tablespoons

3. SPRAY — Apply evenly over the lawn.

II. ENTIRE LAWN TREATMENTS WITH READY-TO-USE HOSE-END SPRAYERS :

This product may be packaged as a ready-to-use product with no mixing. The retail plastic container is fitted with a sprayer body that delivers spray droplets at a fixed rate.

For READY-TO-USE Hose End Sprayers:

• This retail sprayer bottle will cover the treated areas described below when this product is applied at 6.4 fl.oz.of product per 1,000 sq.ft. Over-application or rates above those recommended on this label can cause turf injury.

	Amount of proc	luct to treat appro	oximate area, sq.	ft.	
Species	Fl.oz./1,000 sq.ft.	1.0 pt. (16 fl.oz.) sprayer jar or retail container	1.0 qt. (32 fl.oz.) sprayer jar or retail container	2.0 qt. (64 fl.oz.) retail container	1 gallon (128 fl.oz.) retail container
Kentucky bluegrass Ryegrass, perennial and annual Tall fescue Mixtures of cool season species Bermudagrass ^{1,} common and hybrid Zoysiagrass and Buffalograss	6.4 fl.oz. /1,000 sq.ft.	2,500 sq.ft.	5,000 sq.ft.	10,000 sq.ft.	20,000 sq.ft.

Approximate treated areas for four retail container sizes:

Instructions:

• Determine (Measure) the total lawn area to be sprayed. For rectangular areas, multiply the length by the width to obtain total square feet.

- CONNECT: Remove bottle cap and screw the spray nozzle onto the bottle. Attach [connect] garden hose to spray nozzle. Turn [rotate] the spray nozzle lever to the "OFF" position.
- SPRAY: Turn on water at faucet. Extend hose to the farthest area of lawn [turf] to be treated. To begin spraying, turn [rotate] the spray nozzle lever to the "SPRAY" position. The herbicide mixes automatically with the water. Walk at a steady pace while spraying evenly and working towards the faucet.

Refer to view strip [graduated scale] on side of container to guide coverage. This xx fl.oz. container will treat up to xxxx sq.ft. of turfgrass.

• FINISH: To stop spraying, turn [rotate] spray nozzle lever to the "OFF" position. Turn off water at faucet. To relieve pressure, turn [rotate] spray nozzle to the "ON" position and point sprayer away from any desirable plants before disconnecting the sprayer nozzle from the garden hose.

III. SPOT TREATMENTS WITH HAND-OPERATED SPRAYERS FOR SMALL AREAS OR INDIVIDUAL WEEDS:

For hand-operated sprayers (backpack, knapsack, tank-type or pump-up):

- Apply to actively growing grass and broadleaf weeds during the early growth stages.
- Measure and mix the proper amount of product with water as described below. Mix 2.5 fl.oz. of product with 1 gallon of water to treat 400 sq.ft. of lawn. See below for additional spray preparations
- Spray evenly over the lawn. Spray coverage should be uniform and complete. Over-application or rates above those recommended on this label can cause turf injury.

Amount of Product to Use, Fluid Ounces	Amount of Water in Sprayer, Gallons	Approximate Treated Area, Square feet
2.5 fl.oz.	1 gallon	400 sq.ft.
3.75 fl.oz.	1.5 gallons	600 sq.ft.
5.0 fl.oz.	2 gallons	800 sq.ft.
7.5 fl.oz.	3 gallons	1,200 sq.ft.

Equal measures: 2.5 fl.oz. = 5 Tablespoons. 1 cup = 8 fl.oz. =1/2 pin

OR

Measure indicated amount of product and pour into tank. Dilute with water according to the following chart. Adjust the nozzle to deliver coarse spray droplets and treat the area indicated.

Amount of Product to Use, Fluid Ounces	Amount of Water in Sprayer, Gallons	Area To Treat, Square feet
2.5 fl.oz.	1 gallon	400 sq.ft.
5 fl. fl.oz.	2 gallons	800 sq.ft.
7.5 fl.oz.	3 gallons	1,200 sq.ft.

IV. ENTIRE LAWN TREATEMENTS WITH THE ORTHO READY-SPRAY® SYSTEM:

HOW TO USE THE READY-SPRAY® SYSTEM

Connect:

- 1. Shake well before using.
- 2. Connect sprayer to hose.
- 3. Turn on water.
- 4. Extend hose to farthest area of the lawn to be treated

Spray:

- 1. To begin spraying, point nozzle in the direction you want to spray.
- 2. Bend small plastic tab back and turn knob clockwise to ON position.
- 3. Spray evenly over measured area.

Finish:

- 1. To STOP spraying, rotate the knob counterclockwise to the OFF position.
- 2. Turn off water.
- 3. Relieve water pressure by bending plastic tab back and turning knob to ON position until water slows to a drip. Then, turn knob back to OFF position.
- 4. Disconnect sprayer from hose.

V. FOR SPOT TREATMENT: TANK SPRAYER:

Add 2.5 fl.oz. per gallon of water for each 400 sq.ft.

For broadcast application: Ortho Dial 'N Spray® Applicator

- 1. Add 16 fl.oz. of concentrate directly into sprayer jar. DO NOT ADD WATER.
- 2. Set dial to 2.5 oz.
- 3. Spray evenly over 2,500 sq.ft.
- 4. Any unused portion should be poured back into its original container.

[Over-application or rates above those recommended on this label can cause turf injury]

VI. FOR ORTHO WEED-B-GON MAX PLUS CRABGRASS CONTROL [KILLER] SINGLES: For Spot Treatment: (Use a) Tank Sprayer:

Add entire contents (of 1 bottle) (5 oz.) to an empty 2-gallon tank sprayer. Slowly fill with 2 gallons
of clean tap water.

(Instructions) For Spot Weed Treatment

- Add entire contents (5 oz.) to an empty (2-gallon) tank sprayer. Slowly fill with 2 Gallons of clean tap-water
- For Broadcast Application Ortho® Dial 'N Spray® Applicator
 - 1. Set dial to 2.5 oz.
 - 2. Add entire contents of 1 bottle (5 oz) directly into sprayer jar. DO NOT ADD WATER.
 - 3. Spray evenly over 800 sq.ft.

[Over-application or rates above those recommended on this label can cause turf injury]

CULTURAL	TIPS AND NOTES:		
When to Apply:	For established lawns For newly seeded areas For newly sodded, sprigged, or plugged areas	 Apply when daytime temperatures are below 90°F. Apply this product to newly seeded grasses when well- established (approximately 6 weeks after seedling emergence) or after the third mowing. Apply this product 3 to 4 weeks after the sodding, sprigging, or plugging operations. 	
Seeding:		 The treated area can be seeded at 4 weeks after the application of this product. 	
Irrigation:	Non-stressed turfgrass Stress from high temperatures, drought, insects or diseases.	 Adequate soil moisture and favorable growing conditions enhance the performance of this product. Avoid applications of this product when turfgrasses are under stress since injury may result. If dry conditions exist, schedule irrigations (watering) before and after the application. For best results, delay the irrigation until approximately 24 hours after application of this product. 	
Mowing:		 Delay mowing 2 days before and until 2 days after the application of this product. Do not use clippings from the treated areas as mulch or compost around flowers, ornamentals, trees, or in vegetable gardens. 	
Nontarget plants:		 Do not apply this product to food crops (gardens, fruits and vegetables), forage crops, or ornamental plants including flowers, trees, shrubs, hedges, woody ornamentals, groundcovers established in landscape plantings and other nontarget plants. Do not spray exposed roots of ornamentals and trees.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Keep from freezing. Store in original container in a locked storage area inaccessible to children and pets. Avoid contamination of food or feedstuffs.

DISPOSAL: If Empty—Do not reuse this container. Place in trash or offer for recycling if available. **If Partly Filled**—Call your local solid waste agency or toll free number (1-800-XXX-XXXX) for disposal instructions. Never place unused product down any indoor or outdoor drain.

LIMITED WARRANTY AND DISCLAIMER

FOR USE ONLY AS DIRECTED. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, THE MANUFACTURER NEITHER MAKES NOR INTENDS ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WHICH ARE HEREBY EXPRESSLY DISCLAIMED. IN NO CASE SHALL THE MANUFACTURER BE LIABLE FOR INCIDENTIAL, CONSEQUENTIAL, OR SPECIAL DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. If these terms are not acceptable, return this product unopened immediately to the point of purchase, and the purchase price will be refunded in full. The terms of this Limited Warranty and Disclaimer cannot be varied by any written or verbal statements or agreements at the point of sale or elsewhere.

[OPTIONAL WARRANTY STATEMENT]

The ORTHO Guarantee

If for any reason you are not satisfied with this product, mail us proof of purchase to obtain a full refund of your purchase price.
