JAN 1 0 2008

Dr. James L. Kunstman, Ph. D. Product Registration PBI/Gordon, Corporation P.O. Box 014090 Kansas City, Missouri 64101

SUBJECT: Application for Pesticide Notification (PRN 98-10) Request Alternate Brand Name "Gordon's Grub-No-More Granules" EPA Reg. No. 2217-909 Application Dated December 7, 2007

Dear Dr. Kunstman:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 dated 12/07/07 for the above product. The Registration Division (RD) has conducted a preliminary screen of this request for its applicability under PRN 98-10 and finds that the action(s) requested fall within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

If you have any questions, please call me directly at 703-305-6249 or Owen F. Beeder of my staff at 703-308-8899.

Sincerely,

Linda Arrington

MANUFACTURED BY: Bill Gondon An Employee Owned Company 1217 West 12th Einst Kancas City, Micsouri 64 101

Telephone: 800-821-7925

READ THE ENTIRE LABEL FIRST. OBSERVE ALL PRECAUTIONS AND FOLLOW DIRECTIONS CAREFULLY.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed or absorbed through skin. Causes eye irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.

	FIRST AID
IF SWALLOWED:	 Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
IF ON SKIN OR CLOTHING:	 Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.
IF IN EYES:	 Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
IF INHALED:	 Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for to a doctor. You may also contact 1-877-800-5556 for emergency medical information.

Active Ingredient: 0.2% imidacloprid, CAS Registry No. 138261-41-3.

Note To Physician: No specific antidote is available. Treat the patient symptomatically.

ENVIRONMENTAL HAZARDS

This product is highly toxic to aquatic invertebrates. Do not apply directly to water.

Do not contaminate water when cleaning equipment or disposing of equipment washwater.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read all directions for use and conditions of sale before using.

For residential use on lawns and landscaped areas.

What Gordon's Grub-No-More does:

White grubs can cause extensive damage to turf by feeding on grass roots. Affected turf turns yellow, then brown, and is easily pulled up in pieces with your hands. Mole crickets can seriously damage lawns by their tunneling activity. Some species also feed on the grass roots, as well. **Grub-No-More** prevents turf damage by killing grubs and mole crickets when they are newly hatched and before they can cause turf damage.

Grub-No-More works best when applied before grubs and mole crickets hatch. The active ingredient will remain in the root zone of the turf until the eggs of grubs or mole crickets hatch. These newly hatched insects are highly susceptible to imidacloprid, and are killed before they become large enough to cause turf damage. **Grub-No-More** also kills grubs in landscaped ornamental areas containing flowers, groundcovers, shrubs and trees.

If you have questions regarding the best time to make applications in your area, you can consult your local County University Extension Office. Be sure that you describe the product you are using when seeking such advice.

Pests Controlled:

White grubs (including the larvae of Japanese beetle, Oriental beetle, chafers, Asiatic garden beetle, May or June beetles, and black turfgrass ataenius) and mole crickets.

How to Apply:

Using either a drop-type or rotary-type spreader, apply **Grub-No-More** uniformly over the area being treated. Avoid the use of spreaders which may apply the product in narrow, concentrated or uneven bands. Calibrate your spreader according to the spreader manufacturer's directions to ensure the proper amount of **Grub-No-More** is applied. Check frequently to be sure spreader is working properly and spreading granules evenly.

After Applying:

Grub-No-More will work best if the lawn is watered thoroughly or if rainfall occurs within 24 hours after application to move the active ingredient through the thatch and down into the soil. Avoid mowing lawn until watering or rainfall has occurred so that the uniformity of the granules is not disturbed.

When to Apply:

Grub-No-More works best when applied before grubs and mole crickets hatch.

For best results, apply as follows:

White grubs: Apply once, anytime from April through mid-August.

Mole crickets: In Florida, apply once from early April through early May. Elsewhere, apply once from mid-May through mid-June.

Do not apply **Grub-No-More** when turf areas are waterlogged. The product may not work effectively under these conditions.

EPA Reg. No. 2217-909 Grub-No-More

How Much to Apply:

0

For control of white grubs, **Grub-No-More** should be applied at the rate of 2.87 pounds of product per 1,000 square feet. For mole cricket control, apply 3.8 pounds of product per 1,000 square feet. **Table 1** can be used as a guide for applying the proper rate of **Grub-No-More**. However, the application rate can vary depending on the speed of application and the condition of the spreader. For best results, use a normal, steady pace when applying to obtain an accurate, even application.

	Application Rates				
Spreader Model	Setting to deliver 2.87 pounds of product per 1,000 sq. ft.ft.	Setting to deliver 3.8 pounds of product per 1,000 sq.ft.			
Earthway Rotary	13	15			
Precison Drop	12	14			
Precision Rotary	4.7	5.9			
Red Devil Rotary	7	8			
Sears Rotary	3	3.5			
Scotts Accugreen	5.25	5.75			
Scotts Edgeguard	3.25	4			
Scotts Precisiongreen	4	4.5			
Scotts Speedygreen	3,25	4			
Scotts Tractor	3	3.5			
Spyker Rotary	4.75	5.25			

Settings are approximate. The condition of your spreader, the speed at which you walk and uneven terrain may affect the rate of application. Calibrate your spreader according to manufacturer's directions.

Tip: 1,000 sq ft = 20 ft x 50 ft

Do not use a spreader that applies granules in narrow, concentrated or uneven bands. Be sure the spreader works properly and spreads granules evenly.

For additional spreader settings, please visit our website at www.pbigordon.com/homefarm

APPLICATION TO LANDSCAPE PLANTINGS (Trees, Shrubs, Evergreens, Flowers, Groundcovers)

Pests Controlled:

White grubs (including larvae of Japanese beetle, Oriental beetle, chafers, Asiatic garden beetle, May and June beetle, and black turfgrass ataenius).

How to Apply:

Apply as a broadcast treatment to soil, mulch or other substrate. Prior to application, remove black plastic from area to be treated to allow water to penetrate into the soil. Permeable weed barriers need not be removed prior to application.

After Applying:

Grub-No-More will work best if material is worked into the soil around plants or if a thorough watering of rainfall occurs within 24 hours after application to move the product down through mulch and into the soil.

When to Apply:

The best control of grubs will be obtained if **Grub-No-More** is applied before grubs begin to hatch. For best results, application should occur from April through mid-August.

DO NOT apply to waterlogged areas. Imidacloprid may not work effectively under these conditions.

How Much to Apply:

Grub-No-More should be applied at the rate of 2.87 pounds of product per 1,000 square feet. This 30 pound bag will treat 10,000 square feet of landscaped plantings. However, the application rate can vary depending on the speed of application and the condition of the spreader.

[Optional Text--

Table 2 can be used as a guide for applying the proper rate of Grub-No-More

Table 2.

Bag Size	Treated Area, sq. ft.	
30 Pounds	10,000 sq. ft. ft.	

End Optional Text]

NOTE: DO NOT apply Grub-No-More to vegetable gardens.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal

Storage Conditions: Store in original container in a cool, dry place, out of the reach of children, preferably a locked storage cabinet.

Disposal

If empty: Do not reuse container. Place in trash or offer for recycling if available.

If Partly Filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

LIMITED WARRANTY AND DISCLAIMER

FOR USE ONLY AS DIRECTED. TO THE EXENT CONSISTENT WITH APPLICABLE LAW. THE MANUFACTURER NEITHER MAKES NOR INTENDS ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WHICH ARE HEREBY EXPRESSLY DISCLAIMED. IN NO CASE SHALL THE MANUFACTURER BE LIABLE FOR INCIDENTIAL, CONSEQUENTIAL, OR SPECIAL DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT.
