

2224-51

# Mobil<sup>®</sup>

# Modown

herbicide  
emulsifiable concentrate

Contents: 5 Gallons

Active Ingredient	
Bifenox [Methyl 5-(2,4-dichloro- phenoxy)-2-nitrobenzoate]	21%
Inert Ingredients	79%

Equivalent to 2 lbs/gallon

**DANGER: KEEP OUT OF REACH OF CHILDREN.**

See right panel for additional precautionary information

U.S. Pat. No. 3,652,645

## Mobil Chemical

EPA Registration No. 2224-51

**CAUTION:** ...

**HAZARDOUS INGREDIENTS  
AND ENVIRONMENTAL HAZARDS**

**DANGER:** Corrosive. Causes severe eye irritation. Avoid contact with eyes. Avoid contact with skin. Wash thoroughly with soap and water. Keep container closed. Use with adequate ventilation.

**FIRST AID:** In case of contact with eyes, immediately flush eyes with plenty of water for at least 15 minutes. Call a physician immediately if symptoms do not stop and water is not sufficient. If swallowed, do not induce vomiting. Remove from stomach by gastric lavage. **CALL A PHYSICIAN IMMEDIATELY.**

**NOTE TO PHYSICIAN:** Prohibit surgical drainage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish. Do not use in areas where crayfish and fish farming are agricultural practices. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

**Directions for use**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**CONTAINER DISPOSAL**

Do not reuse empty containers. Containers should be rinsed out with water and the rinse water added to the spray tank. The rinsed containers should be crushed or perforated and buried in a safe place away from water sources.

**Mixing:** Mix the recommended amount of MODDOW herbicide with enough water (usually 20 to 40 gallons of water per acre) to uniformly cover the area to be treated. Continue mixing while spraying.

**SOYBEAN**

For control of: *Pharbitis*, *Abutilon*, *Portulaca*, *Smartweed*, *Lamb*, *Velvetleaf*.

**Preemergence treatment:** Use 4 quarts per acre. Apply after planting but before crop emergence. Incorporate or incorporate thereafter. Avoid heavy traffic activity.

Do not use as a "pre-plant" treatment.

**Use with other herbicides:** MODDOW herbicide may be used in a variety of control programs. For information on herbicides to provide control of the broadleaf weeds listed above and certain grasses.

**"Piggy back" or sequential application with Trifluralin Herbicide emulsifiable concentrate containing 4 pounds Trifluralin per gallon:** Trifluralin herbicide emulsifiable concentrate may be applied pre-plant, pre-emergence at 1 to 2 quarts per acre. For additional information regarding this product, contact your local distributor or write to the manufacturer.

pre-emergence treatment is directed above on this label. Trifluralin will control certain grasses, broadleaf weeds, weeds, and certain other grasses when used in accordance with the label.

**Tank mix application with Lasso\*\* Herbicide:** MODDOW herbicide may be used in a tank mix application with Lasso herbicide. For information on application rates, use of Lasso herbicide, and other information, refer to the Lasso herbicide label. For specific information on the tank mix application, refer to the Lasso herbicide label.

Lasso will control barnyard grass, crabgrass, foxtail and other annual grasses. For information on the Lasso herbicide label. Observe all precautions on the label.

**Band treatment:** For Lasso to control the broadleaf weeds, should be reduced proportionately to the band width to be treated and the distance between rows. For example, if rows are 30 inches apart and the band to be treated is 12 inches wide, one-third of the total area will be treated and one-third of the broadcast rate should be used.

**NOTE:** Do not use as a "cracking" treatment. Rainfall after application, especially rainfall at the time of crop emergence, may cause severe crop injury. Rainfalls which splash treated soil onto crop plants may cause injury.

Do not rotate treated area until the following year except with soybeans and corn. Cover crop planted after harvest should be plowed under and not grazed.

**Keep from freezing:** Store above 32° F to keep from freezing. Freezing will cause crystals to settle to bottom of can. If allowed to freeze, place can in warm room (60° F. or higher) for several days and shake or roll often to redissolve crystals.

**CONDITIONS OF SALE, WARRANTY, LIMITATION OF LIABILITY:** The directions for use on this label reflect the manner of use based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherent in the application of this product. Crop injury, malfeasance, or other unintended consequences may result because of such factors as weather conditions, presence of other plants, or the manner of use or combination of use, all of which are beyond the control of Moddow Chemical.

Moddow warrants that this product conforms to the general description of the label and is free from adulteration. It does not warrant that the product will perform as stated. The following disclaimer is hereby made: The manufacturer of this product does not warrant, express or implied, that the use of this product will result in a specific yield or other benefit. The use of this product is subject to the foregoing and the user assumes the responsibility of liability. A duly authorized representative of the manufacturer has signed this agreement in writing.
