**DIRECTIONS**

1. EXCELCIDE Vapo Spra for the control of crawling insects such as Roaches, Silverfish, Fleas, Ants.

Using the EXCELCIDE Deluxe Residual Tank Type Sprayer, EXCELCIDE X-L Jet, or EXCELCIDE Permanent Spraying Installation, spray EXCELCIDE Vapo Spra thoroughly into and around cracks and crevices behind switch boxes, sinks, double wall partitions, baseboards, window or door casings, and conduits and conduit terminal boxes to drive out and kill hiding Roaches or Silverfish from their breeding sites and harborages. The application must be done so that the insects hiding in these places will be contacted with the spray. Repeat treatment when reinfestation occurs, or at regular intervals every 30 days.

**CAUTION:**

Harmful if swallowed. Do not store or use near heat or open flame. Remove or cover all exposed food utensils, and containers before spraying. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product as a space spray in these areas, apply only when plant is not in operation.
