CAUTION

Harmful if swallowed, inhaled, or absorbed through skin. Avoid breathing vapor. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing before reuse.

Use the product in food processing plants only when the plant is not in operation. Foods should be removed or covered during treatment. After space spraying, thoroughly wash all equipment, benches, shelving, etc. where exposed food will be handled with an effective cleaning compound and rinse with potable water before use. Do not remain in treated areas and ventilate the area after treatment is completed.

## STATEMENT OF PRACTICAL TREATMENT

- IF SWALLOWED: Call a doctor or get medical attention. Do not induce vomiting. Do not give anything by mouth to an unconscious person. Avoid alcohol.
- IF ON SKIN: Wash with plenty of soap and water. Get medical attention if irritation persists.
- IF INHALED: Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.
- IF IN EYES: Flush eyes with plenty of water. Call a physician if irritation persists.
- NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

## ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of equipment washwaters.

## PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame.

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

EXCELCIDE Space Spra is designed for control of small flying insects: Flies, Gnats, Mosquitoes, and Flying Moths (adult Mediterranean Flour Moth, Indian Meal Moth, and Angoumois Grain Moth).

Spray EXCELCIDE Space Spra into entire room, after closing off all air current. Spray should be directed upward at wall and ceilings so that as many insects as possible can be contacted with a direct vapor or mist. EXCELCIDE Space Spra can be applied by means of an electric, portable fogging device, such as the Dyna Fog, Challenger, Microsol, or BVI Foggers. Apply at the rate of one ounce per 1000 cu. ft. Room should be kept closed at least ten minutes after spraying. Repeat as often as necessary to keep listed insects under control. Periodic spraying of EXCELCIDE Space Spra assists in the control of new infestations of listed insects. Sweep up all dead and dying insects and destroy them at the close of the ten (10) minute period.

Infested stored food products, should be fumigated or treated by other effective methods using an accepted product intended for this purpose.

EXCELCIDE Space Spra is also designed for control of crawling insects: Ants and Silverfish, and stored product pests: Confused Flour Beetles, Red Flour Beetles, Rice Beetles, Cadelles, Saw-Toothed Grain Beetles, Dermestid Beetles, and Carpet Beetles, in their accessible stages. Thoroughly clean all flour, grain, and food dusts from horizontal surfaces, since these static accumulations encourage stored product pest breeding.

Spray EXCELCIDE Space Spra with permanent Spraying installations, portable electric sprayers, or foggers, as mentioned above, applying to walls, floors, baseboards, wall floor junctures, window sills, doorway areas, and storage areas. Spray outside of storage sacks before storing. Spray box cars and store rooms before filling with grain, feed, or food products. Repeat at regular intervals or as often as necessary to control the listed insects. Apply at the rate of one ounce per 1000 cu. ft., giving emphasis to directly contacting as many insects as possible.

[ ILLUSTRATION ]

EXCELCIDE Space Spra is ideal for control of American, German, and Oriental Cockroaches. Spray as directed above for crawling insect control, directly contacting as many insects as possible.

STORAGE AND DISPOSAL

STORAGE: Store in a secure area. Keep container tightly closed when not in use. Store away from heat, strong oxidizers or open flame. Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE DISPOSAL: Pesticide, spray mixture, or rinsate that cannot be used according to label directions should be disposed of according to applicable Federal, State or local procedures.

CONTAINER DISPOSAL: Triple rinse (or equivalent) and offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by State and local authorities.

NOTICE:

Seller and manufacturer warrant that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.
