

### DIRECTIONS

Use this product for control of small flying insects: Flies, Gnats, Mosquitoes, and Flying Moths (Adult Mediterranean Flour Moth, Indian Meal Moth and Angoumois Grain Moth - exposed stages).

For control of above named flying insects, spray the product into entire room, after closing off all air currents. Spray should be directed upward at walls and ceilings so that as many insects as possible can be contacted with a direct vapor or mist. Electric or portable fogging devices (Challenger, BVI, or Dyna-Fog foggers) should be used for application.

Room should be kept closed at least ten minutes after spraying. Repeat as often as necessary to keep named insects under control. Periodic spraying assists in the control of new infestations of the named insects. After spraying, sweep up all dead and dying insects and destroy them.

### NOTICE

Seller and manufacturer warrant that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.

## DCA SPACE SPRAY

A Space or Contact Spray for Flying,  
Crawling and Stored Product Pest Control

Contains Vapona and Synergized Pyrethrins

### ACTIVE INGREDIENTS:

Petroleum Distillate	99.3018%
2,2-dichlorovinyl dimethyl phosphate*	4600%
Related compounds*	0400%
N-octyl bicycloheptene dicarboximide**	0780%
Technical piperonyl butoxide***	0468%
Pyrethrins	0234%

### INERT INGREDIENT:

Epichlorohydrin	0500%
*Vapona Insecticide R	
**MGK Insecticide Synergist, U.S. Patent No. 2476512	
***Equivalent to .0374% (butylcarbityl (6-propylpiperonyl) ether and .0094% related compounds.	

## CAUTION:

Keep Out Of Reach Of Children  
(See side panel for additional cautions)

**THE  
HUGÉ COMPANY  
INC.**

884-886 HODIAMONT AVENUE  
SAINT LOUIS, MO 63112

### DIRECTIONS

Use this product for control of crawling insects: Ants, Silverfish and exposed stages of stored product insects: Confused Flour Beetles, Red Flour Beetles, Rice Beetles, Cadellid Saw-toothed Grain Beetles, Dermestid Beetles and Carpet Beetles.

Thoroughly clean, preferably by vacuuming, all flour, grain and food dust from horizontal surfaces, since these static accumulations encourage stored product pest breeding.

Spray the product into cracks, crevices, on walls, ceilings, floors and in storage spaces frequented by the above named insects. Also apply in cracks of flooring and baseboards, and cracks inside and outside of flour, grain or food handling equipment or bins. Thoroughly mist outside of storage sacks before storing. Spray box cars and store rooms before filling with grain, feed or food products. Repeat at regular intervals or often as necessary to control named insects. Application should be made with electric or portable fog devices: Challenger, BVI or Dyna-Fog foggers.

### CAUTION

Harmful if swallowed, inhaled or absorbed through skin. Avoid contact with skin, eyes, or clothing. May be absorbed through breathing spray mist. Skin contact can cause toxic symptoms. Avoid contamination of foodstuffs. Do not use in the edible products areas of food processing plants. Do not remain in treated areas, and ventilate after use. Use the product in food processing plants only when plant is in operation.
