

For use around municipalities, parks, golf courses, and outdoor theatres. Kills flies, gnats, wasps, night flying insects, and certain other small flying insects. MUNI-FOG is designed for use in fogging equipment, and is intended for outdoor use.

DIRECTIONS: Can be diluted with fuel oil or kerosene-type petroleum distillate. Highly concentrated. Use in fogging equipment. Apply shortly before using the area to be treated. For best results, spray when there is little or no breeze. Designed for dilution at the rate of 50 parts oil to one part MUNI-FOG to kill flies and certain other small flying insects. Dilute 30 parts oil to one part MUNI-FOG for above normal mosquito and small flying insect control. It is recommended that only the amount of diluted emulsion be prepared from the concentrate that will be used immediately.

CAUTION: This product is toxic to fish. Keep out of any body of water. Apply this product only as specified on this label. Avoid contamination of food and food stuffs. Do not apply to dairy animals.

USE: After dilution, fog MUNI-FOG in outside areas such as municipalities, parks, golf courses, and outdoor theatres at the rate of approximately two gallons per acre, by completely covering the area being sprayed with visible fog.

MUNI-FOG

A Malathion Concentrate to be diluted 50-1

ACTIVE INGREDIENTS	100%	
Petroleum Distillate		62.5%
Malathion (0,0-dimethyl dithiophosphate of diethyl mercaptosuccinate)		37.5%

USDA Registration No. 2270-134
