

KILL-KOTE

SURFACE TREATMENT SPRA-CONTAINING SYNERGIZED PYRETHRINS AND® BAYTEX

ACTIVE INGREDIENTS

Petroleum Distillate	98.225%
Fenthion (0,0-Dimethyl 0 - (3-methyl-4-(methylthio) phenyl) phosphorothioate)*	1.000%
Technical Piperonyl Butoxide**	.500%
Pyrethrins	.200%
INERT INGREDIENT	.075%

*BAYTEX® is a Reg. TM of the Parent Company of Farbenfabriken Bayer GmbH, Leverkusen.
**Equivalent to .40% (butylcarbityl) (6-propylpiperonyl) ether and .10% related compounds.

**THIS FORMULA MUST BE USED BY TRAINED OPERATORS ONLY FOR INDUSTRIAL
USE IN FOOD PROCESSING, BEVERAGE AND WAREHOUSE INDUSTRIES**

WARNING: KEEP OUT OF REACH OF CHILDREN
(See additional warnings on side panels)

ACCEPTED

JUN 6 1975

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 2270-139

Sanitation in the Food and Allied Industries

FACE AGENE • ST. LOUIS, MISSOURI 63133

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds, and other wildlife. Keep out of any body of water. Do not apply where birds or animals are present. Do not apply to crops or animals. Apply only as directed.

EPA Registration No. 2270-139
EPA Est. No. 2270-MO-01

NOTICE
Seller and manufacturer warrant that this product conforms to the physical description and is reasonably fit for the purposes stated on the label when used in accordance with the directions under normal conditions of use. This warranty, or any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.

DIRECTIONS

This product is a ready-to-use formula, needing no dilution. To control existing cockroach infestations: the American Cockroach, the German Cockroach, and the Oriental Cockroach, and to protect against roach re-infestations, spray this product over and into cracks and crevices. Treatment should be confined basically to wall-floor junctures, bases of equipment, and under surfaces of skids. Approximately 20% of wall and floor surfaces should be covered. Make sure that ALL breeding sites and harborages are thoroughly wetted down with the insecticide to a point where these surfaces are glistening wet, and yet do not run. This should be at the rate of about 1 gal. per 1,000 sq. ft. This wetting down residual application can best be achieved through a low-pressure, conventional garden-type tank sprayer, fitted with a special fan-pattern nozzle.

For control of existing flying insects (Houseflies, Drosophila Gnats, Mosquitoes and exposed stages of Indian Meal Moths, Mediterranean Flour Moths, and Angoumois Grain Moths) thorough residual application of this product should be applied in a residual wetting-down treatment to surfaces on which the insects alight or crawl. This application should be only in areas where the affected insect will not drop into food or onto food surfaces.

For control of exposed stages of stored product insects: Confused Flour Beetles, Saw-Toothed Grain Beetles, and Cadellas, apply this product residually as directed above for cockroach control, using the same principle of laying down a residual deposit that will continue to kill for days after application. Since these insects harbor and breed in flour and food dust, such deposits must be vacuumed and cleaned before making application.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds, and other wildlife. Keep out of any body of water. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

EXCEL CID E

THE HUGE COMPANY, INC.

Sanitation in the Food and Allied Industries

Manufacturers of EXCEL CID E INSECTICIDES and PEST CONTROL TOOLS

7625 PAGE AVENUE • ST. LOUIS, MISSOURI 63133

Ready-To-Use - - Needs No Dilution
To Be Residually Applied
Not for Space Spraying or Fogging

WARNING

Do not get in eyes, on skin, or on clothing. Harmful if swallowed, inhaled or absorbed through skin. In case of contact, wash immediately with soap and water.

Use only in the inedible product areas of meat and poultry plants. Treat food processing plants early in the season before canning or other processing begins. Repeat application if necessary when plant is not in operation. Do not use in edible products areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

Do not breathe spray mist. Wash hands, arms, and face with soap and water after handling and before eating or smoking. Wash all contaminated clothing with soap and hot water before reuse.

Apply so that no contamination will occur of food or food handling surfaces. Confine usage to interior of plant and to exterior plant building structure, outside walls and dock areas. Avoid excessive wetting of asphalt tile, rubber and plastic materials. Do not use in areas where children or pets can come into direct contact with treated surfaces. Do not reuse empty drum. Return to drum reconditioner or destroy by perforating or crushing and burying in a safe place away from water supplies.

NOTICE

Seller and manufacturer warrant that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.
