

EXCELICIDE Synergized Pyrethrins

To be used with care in areas where insects, bacteria, fungi, etc. are present. Do not use in food packing plants, bottling plants, breweries, cheese factories, packing plants, drug factories and other industrial establishments.

EXCELICIDE Synergized Pyrethrins	5.00%
1,1,1-trichloro-2,2,2-trifluoroethane	3.00%
n-Propyl dicyclohexane dicarboxylate *	2.00%
Piperonyl butoxide, Technical **	1.20%
Pyrethrins	1.20%
TOTAL INGREDIENTS	5.00%

* MGR 244 Insecticide Synergist, U. S. Patent No. 2945265 and 2945267
 ** Consists of 0.92% (butylcarbityl) (o-propylpiperonyl) ether and 0.48% related compounds.

DIRECTIONS FOR USE

HOUSEHOLD USES: Dilute one part of EXCELICIDE Synergized Pyrethrins Concentrate plus 20 parts of water and spray vigorously in all parts of room, including crevices per 1000 cubic feet of space. Leave room closed for 15 minutes. Sweep up and destroy killed insects. Repeat as needed.

CRACKS AND CREVICES: Dilute 1 part of EXCELICIDE Synergized Pyrethrins Concentrate plus 10 parts of water and spray to point of run-off all cracks, crevices, and other areas, including pipes, around base of all machines, paying particular attention to dark areas. Do not wash away. Repeat as needed. Contact as many insects as possible, while spraying.

ANIMAL QUARTERS (CATTLE, HORSES, PIGS, etc.): Dilute 1 part of EXCELICIDE Synergized Pyrethrins Concentrate plus 10 parts water. Remove and destroy animals' bedding, and spray animal quarters liberally, forcing spray into all cracks in the floor and about roof. Repeat when necessary.

WASHING SHEEP: Dilute 1 part of EXCELICIDE Synergized Pyrethrins Concentrate plus 10 parts water. Spray liberally all infested areas, paying particular attention to necks, heads, and other hiding places. Spray liberally the undersides of infested sheep. Repeat as needed.

GRAIN STORAGE AREAS: Dilute 1 part of EXCELICIDE Synergized Pyrethrins Concentrate plus 10 parts of water. To control the crawling or burrowing of insects, apply to point of run-off to all areas infested by these insects. Pay particular attention to cracks and crevices in floors, walls and ceilings. Spray thoroughly around and under all bins, conveyors and other areas where Granary Insects may be found. (For Flycatching, see above.) Do not apply this spray to surfaces that may come in contact with food; excessive residues in food may result.

CAUTION

KEEP OUT OF REACH OF CHILDREN

Do not inhale. Do not apply directly to food. Cover or remove all food and food processing equipment during application. Do not apply while food processing is in progress. Do not spray in food packing plants, bakeries and other food processing plants, and do not wash water all equipment, benches, shelving, etc. where exposed food will be present. If washing is impractical, do not allow food to come in contact with treated surfaces for 24 hours. Do not store, pour or spill near heat or open flame. Keep containers...
